How to create a MyMedicare.gov account

1. Go to [www.medicare.gov](http://www.medicare.gov)

2. Click on Log In/Create Account,

   ![Log In/Create Account](image)

   You will be able to log in if you’ve already created an account or
3. Click on the **Create Account** tab
4. You will be prompted to enter your Medicare number and other identifying information. You do not need an email to set up an account, simply check the ‘I don’t have an email address’ box.
5. After entering the information from your Medicare card you will be prompted to create a Username and password.

6. You are ready to begin using your Medicare account.

You’re all set! You can now log in and start using your account. You’ll also get a confirmation letter in the mail within 10-14 days to the address listed in your account.

Trouble signing in?
Using a shared or public computer? Be sure to log out and close all browser windows when you’re done. This will help keep your information secure.
