Additional Information Collected During Inspection

Comments: No violations observed during inspection. Observed gloves to prevent bare hand contact with ready to eat food items such as hamburger buns. Discussed the importance of washing hands between glove changes and after any source of contamination such as eating, drinking, coughing, sneezing, smoking, using the restroom or returning to food service after any kind of break. An analog probe thermometer was available to ensure that potentially hazardous food items (PHF) such as salmon is cooked to 140F or above. Observed required cold holding temperatures (45F or below) of PHF such as American cheese slices in the homestyle refrigeration unit (actual 45F). Test strips were available to ensure that the strength of chlorine sanitizing solution is at least 50ppm for sanitizing dishes and at least 100ppm for sanitizing food contact surfaces. A chlorine residual of 0.39 mg/L was observed at the kitchen cold water tap.
