JOSEPH E. SARTORI, CPA
COUNTY TREASURER

June 23, 2015

**Taxpayers of Chemung County,
Honorable Thomas J. Santulli, County Executive,
Members of the Chemung County Legislature, and
Employees of Chemung County**

This Comprehensive Annual Financial Report (“CAFR”) for the County of Chemung, New York (the “County”) for the year ended December 31, 2014 has been prepared in accordance with generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board. The responsibility for the accuracy and completeness of these statements belongs to the Office of the Treasurer of Chemung County. To the best of our knowledge and belief, the information in this CAFR presents fairly the financial position and results of operations of the County. All disclosures necessary to enable the governing body to evaluate and make informed decisions have been included.

The CAFR is presented in three sections: Introductory, Financial and Statistical. The Introductory Section consists of this letter of transmittal, which gives an overview of the County’s history and highlights of key departmental structure. The Financial Section includes the Independent Auditors’ Report, Management’s Discussion and Analysis (MD&A), the basic financial statements and notes thereto, required supplementary information other than MD&A, and the underlying combining and individual fund financial statements (multi-year basis) and supporting schedules (multi-year basis) for the year ended December 31, 2014. The Statistical Section sets forth selected economic and demographic information for the County on a multi-year basis.

This report includes management’s representation as to the finances of the County. Accordingly, management assumes full responsibility for the completeness and accuracy of all the information presented herein. To provide a reasonable basis for making these representations, the management of the County has established a comprehensive internal control framework that is designed to provide reasonable, but not absolute, assurance that the financial statements are free from material misstatement.

The County’s basic financial statements have been audited by the independent Certified Public Accounting firm of EFP Rotenberg, LLP. The auditors are required to conduct the audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free of material misstatement. The audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. The audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. As a result of their audit they have issued an unmodified opinion on the County’s basic financial statements for the year ended December 31, 2014.

The independent audit of the County’s basic financial statements was part of a federally mandated “Single Audit” designed to report on specific requirements of the recipient of federal funds. The standards mandated under a Single Audit require the County to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, the U.S. Office of Management and Budget Circular A-133, and the Single Audit Act Amendments of 1996. The Single Audit includes the Schedule of Expenditures of Federal Awards, the independent auditors’ report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards* and a schedule of findings and questioned costs. This report is issued separately and a copy can be obtained at the Chemung County Treasurer’s Office, 320 East Market Street, Elmira, New York 14901.

PROFILE OF COUNTY OF CHEMUNG, NEW YORK

The County is situated on the New York-Pennsylvania State border in the area known as the Southern Tier of New York State. It is almost mid-center (east - west) in New York State and is approximately equidistant from Boston, Montreal, Washington, D.C. and Cleveland. The County encompasses a land area of 412 square miles. The City of Elmira is the County Seat.

The Elmira-Chemung County metropolitan area is a gateway to the Finger Lakes region and is the focal point of industry, business and recreation in the "Twin Tiers" area which is comprised of the New York counties of Chemung, Steuben, Schuyler and Tioga and the Pennsylvania counties of Bradford and Tioga.

The first permanent settlements in Chemung were made between 1787 and 1800 and occurred in Big Flats, Elmira, Southport, Van Etten and Veteran. In 1836, the County was officially formed from a portion of Tioga County. By 1867, it had eleven towns: Catlin, Veteran, Big Flats, Horseheads, Erin, Van Etten, Elmira, Baldwin, Southport, Ashland and Chemung.

In 1974 the County adopted the charter form of government. The charter provides for an independently elected Executive and Legislature. Under the County Charter, the County is divided into 15 legislative districts with an elected legislator representing each district in the County Legislature. The County Executive and the Legislature are elected to four year terms.

The County Treasurer is the Chief Fiscal Officer of the County. The County Treasurer is independently elected and serves a four year term. The Treasurer is responsible for the administration of the financial affairs of the County. The responsibilities of the Treasurer include collection and distribution of county funds, investing of excess funds, issuing debt, maintaining accounts and records and preparing financial reports including the annual financial statements.

The County provides an extensive range of services to its residents, including education, public safety, transportation, health, economic opportunity and development, culture and recreation, home and community services and general administrative support. This report includes all of the funds of the County. It includes all County organizations and activities for which the County is financially accountable. The County has considered all potential component units based on criteria set forth in GASB Statements No. 14 and No. 61 including legal standing, fiscal dependency and governance. Based on these criteria the Chemung County Industrial Development Agency and the Chemung County Soil and Water Conservation District are considered component units and are included in the County's reporting entity as discrete presentations. The Chemung Tobacco Asset Securitization Corporation is considered a component unit and is included in the County's reporting entity as a blended presentation.

The County also maintains budgetary controls to ensure compliance with legal provisions embodied in the annual budget approved by the County Legislature. The County Executive is required to submit the annual proposed budget and capital program to the Legislature on or before November 10th for their consideration. The Legislature must submit the proposed budget along with any changes they adopt back to the Executive not later than the 7th day of December for Executive approval or rejection of the changes. The Executive must submit his (her) objection to the changes, back to the Legislature not later than the 9th day of December. If the Executive does not submit objection to changes by the 9th of December the budget is deemed adopted on that date. If objections are submitted, the Legislature can, with a three-fifths vote, override the Executive's objections. If the Legislature cannot get a three-fifths affirmative vote the budget is deemed adopted with the Executive's objections incorporated not later than the 15th day of December.

FACTORS AFFECTING FINANCIAL CONDITION

Local

The County of Chemung, New York is a rural county located in the southern portion of New York State on the Northern Pennsylvania border. The County's economy has a generous mix of agricultural, industrial, retail and tourist activity.

Major companies include:

Synthes USA – Synthes USA ("Synthes") is a world leader in orthopedic implant devices. Synthes constructed a \$14 million manufacturing facility across from the airport in 2006. This facility initially employed 150 people. They have experienced continued growth in their business over the last several years and now employ over 400 people. They are projecting that this increase in employment will continue and they will be adding an additional 30 individuals on annual basis.

CAF, USA – CAF, USA (“CAF”) is a rail car manufacturer located in the County and has recently been awarded a \$298.1 million contract to build 130 new single level rail cars for Amtrak. This is the first step in Amtrak’s comprehensive fleet renewal program. This contract will result in 575 new jobs being created in the CAF facility. CAF has also been awarded a \$118 million contract from the Massachusetts Department of Transportation to build new train cars for the Green Line Extension. There are several other contracts pending or in various states of completion. With these contracts the CAF facility located in the County could be producing and refurbishing hundreds of new rail cars over the next 30 years. CAF currently employs 800 people and that number is expected to increase to meet the demands of these contracts.

CVS – CVS constructed a \$96 million, 751,000 square foot Distribution Center in the Town of Chemung in 2010. This facility services hundreds of CVS drugstores throughout the northeast with an emphasis on the greater New York City area. CVS is the largest pharmaceutical chain in the USA and employs more than 450 people at the local facility.

Vulcraft – Vulcraft is the leading producer of steel joists, joist girders and decking in the United States. The operation in the Town of Chemung began in 2000 and currently employs more than 300 people.

DeMet’s Candy Company – DeMet’s Candy Company (“DeMet’s”) began production in their facility located at the County’s Corporate Park in Big Flats, New York in the spring of 2009. They have hired over 250 full-time employees and more jobs are planned in the near future. Recently, they signed a contract with the entire Wal-Mart chain for the distribution of their candy products. This will eventually lead to an additional 100,000 square foot facility being constructed in our area. This project will cost approximately \$38 million and create 70 new jobs.

Schlumberger Technology, Inc. – Schlumberger Technology, Inc. (“Schlumberger”) is a Fortune 250 company. They have constructed a 400,000 square foot \$56 million facility in the Town of Horseheads. This natural gas support facility currently employs 300 individuals at an average salary of \$60,000 per person. They are servicing the natural gas industry in Northern Pennsylvania and Ohio.

Kennedy Valve Company – Kennedy Valve Company (“Kennedy”) is a division of McWane, Inc. and is one of the world’s largest manufacturers of fire hydrants. Kennedy Valve employs over 350 people at its Chemung County plant located in the City of Elmira.

Anchor Glass Container – Anchor Glass Container (“Anchor Glass”) is a retail glass manufacturer. Anchor employs 375 people in the Chemung County plant. Its product line consists of clear, green, brown and other colors of glass jars, bottles and containers. Anchor Glass markets its products to numerous food and beverage retailers, with customers that include Anheuser-Busch, Stroh Brewery, Coca-Cola Trading Company, Specialty Products Company, Jim Beam, and Hunt Wesson. Incorporated in 1931, Anchor Glass maintains a facility in Elmira Heights, NY and additional strategically located facilities throughout the United States. Anchor manufactures 2.9 million containers every day.

Hardinge, Inc. – Hardinge, Inc. (“Hardinge”) is the leader in providing a wide range of highly reliable turning, milling, grinding and work holding solutions. Hardinge supports a variety of market applications, including aerospace, automotive, medical, energy, construction, agriculture, mod, tool and die, and more. The company currently employs 590 people.

Hilliard Corporation – Hilliard Corporation (“Hilliard”) is a world leader in motion control and filtration technology. Hilliard has been located in Elmira, New York since 1905. The Hilliard Corporation offers a broad line of motion control products, oil filtration and reclaiming equipment, starters for industrial gas, diesel engines and gas turbines, and plate and frame filter presses used in the food and beverage industry. Employment at Hilliard has increased to 625 people from 350 a few years ago.

Howell Packaging – Howell Packaging (“Howell”) is a division of F. M. Howell and Company, which began operations in Chemung County in 1883. Howell is a designer and manufacturer of folding cartons, rigid boxes and thermoformed plastic containers for a variety of applications including the pharmaceutical industry. Howell currently employs more than 250 people in its various facilities within the County.

Cameron Fabrication – Cameron Fabrication (“Cameron”), a locally owned company, is a highly successful metal fabrication business in the Village of Horseheads. They produce specialized fabrication products and have been growing their employment on an annual basis. They currently have 225 employees.

General Revenue Corporation – General Revenue Corporation (“GRC”) is a division of Sallie Mae and operates a large facility in our corporate park in Big Flats, New York. Their primary function is securing unpaid college loans nationwide. They currently employ 450 people.

Emhart Glass Manufacturing – Emhart Glass Manufacturing (“Emhart”) which is currently located in the City of Elmira is moving to a new \$15 million facility located in our corporate park in Big Flats, New York. Emhart, which is a division of Bucher, manufactures machines that inspect assorted types of containers for imperfections through the use of lasers. They are currently employing 125 people.

Sales Tax

In addition to manufacturing, Chemung County is the retail center of five counties in New York State and the northern tier of Pennsylvania. There are over three million square feet of retail space in the mall and four plaza complexes located in the County. Numerous new stores and restaurants have opened in the last eighteen months. This retail complex has been the mainstay of the County’s sales tax collections. The County continues to see potential for even further retail growth as we move forward.

The County is one of the few counties whose sales tax brings in more revenue than its property tax. This is significant due to the fact that over thirty five percent of all sales tax generated in the County comes from shoppers who reside outside the County’s borders.

In 2013 the County Legislature approved a reallocation of sales tax receipts between the county, towns, villages and the City of Elmira. Under the reallocation plan the County’s share would grow from 62.5% of gross receipts to 75% of gross receipts. The reallocation is to be phased in over four years beginning in 2015. When fully implemented the revised formula will bring in an additional \$7.5 million annually based on the actual 2014 receipts.

Health Care

There are two major hospitals within the County. St. Joseph’s Hospital is church affiliated facility and has been in operation for over seventy years and Arnot-Ogden Medical Center is non-denominational facility which began in 1888 and has grown with the area. In 2011 Arnot and St. Josephs along with Ira Davenport Hospital in Bath, New York merged and are now providing services in a much more efficient manner. The combined entity employs 2,300 people. In addition, Guthrie Healthcare System operates several outpatient clinics throughout the County. Guthrie also built a new Corning Hospital which opened in July 2014 just across the county line from Big Flats. The State Psychiatric Center is a 300-bed facility with 410 employees.

There are over 160 doctors and dentists practicing in the County and specializing in all areas of medicine. There are also more than 800 skilled nursing beds in Chemung County.

Education

The County is served by four public school systems as follows: The Elmira City School District serves the City of Elmira, and major portions of the Towns of Southport, Elmira, Ashland, Chemung and Baldwin. The Horseheads Central School District serves major portions of the Towns of Horseheads, Big Flats, Catlin and Veteran, and about one-half of the Town of Erin. The Elmira Heights Central School District serves the Village of Elmira Heights and small sections of the Towns of Big Flats and Elmira. The Spencer-Van Etten Central School District serves the Town of Van Etten, which is located in the County, as well as the Town of Spencer in neighboring Tioga County.

In addition, the aforesaid School Districts are part of the Greater Southern Tier Board of Cooperative Education Services (“GST BOCES”). GST BOCES services school districts in Allegany, Steuben, Schuyler, Chemung and part of Tioga Counties.

The County is the home of Elmira College, which, until 1969, was the first women’s college to grant degrees comparable to those awarded male students. In the fall of 1969, male students were accepted for the first time. It is a non-sectarian, four year liberal arts college offering undergraduate programs leading principally to the Bachelor of Arts degree. Through its continuing education program, the college offers night school programs leading to associate and bachelor degrees and a master of science degree in education. Other schools within a one hundred mile radius include Corning Community College (17 miles from Elmira), Alfred University, Cornell University, Hobart, William Smith, Ithaca College, Syracuse University, the State Universities of New York at Cortland, Geneseo, Alfred State, and Binghamton University, Broome Community College, Mansfield State University, the University of Rochester and Rochester Institute of Technology. The Arnot-Ogden Medical Center has an accredited school of nursing.

The former Laganegro School Building has undergone a \$5 million renovation and is operating as the Academic and Workforce Developments Center. The center is operated by Corning Community College and provides training in skills needed by area manufacturers such as Vulcraft, Hardinge, Hillard, Howell and others.

Recreation

The County is located in the southern part of the Finger Lakes region and is within easy travel of all Finger Lakes, the closest of which is Seneca Lake, 25 miles to the north. County residents enjoy two County Parks, in addition to numerous playgrounds, swimming and wading pools, three public golf courses and other points of interest. One of the County Parks hosts the world renowned Harris Hill Soaring Site, which offers picnic areas, amusements, cabins and the Soaring Museum, along with glider rides and a close up view of this exhilarating sport and the majestic river valley below. Park Station is a County facility that provides more than 100 acres of lake and lands for campgrounds, swimming, boating and other fun.

Not surprisingly, tourism is a growing industry in the County. Hundreds of thousands of visitors from around the world annually visit such attractions as the Mark Twain study on the campus of Elmira College, the National Soaring Museum, Wings of Eagles Discovery Center, Arnot Art Museum, the County Historical Museums, Dunn Field (the home of the College League Baseball's Elmira Pioneers), First Arena (the home of the Elmira Jackals of the East Coast Hockey League) and a host of other shopping, recreational, entertainment, cultural and leisure time attractions.

Thanks to new regional partnerships, the County hosts a healthy share of the numerous visitors, who each year visit the world renowned Finger Lakes, wineries, Watkins Glen Gorge, Watkins Glen International Speedway, the Corning Glass Center and other nearby attractions of New York's Southern Tier.

Transportation

Air transportation is available through the County-owned Elmira-Corning Regional Airport. It is served by First Air (locally owned Fixed Base Operator (FBO)), US Airways Express, Delta Connection, Allegiant Air and United Express. The airport is the only airport in the region with sufficient runway length to accommodate larger regional jets. As a result of the economic growth in the area the airport has experienced a significant increase in enplanements. Enplanements for 2014 were at an all time high.

The County manages an interior network of roads totaling about 780 miles. The Highway Departments in the Towns, City of Elmira and the County cooperate to provide quality highways and various services. The Southern Tier Expressway (Federal Interstate 86), which passes through Elmira, runs from the New York City area to cities and markets in the western section of the State. The New York Thruway is accessible 65 miles to the north at Geneva on Route #14. Route #13 provides the County with a valuable connection to Federal Interstate Route #81, 55 miles to the north located in Cortland. Route #15 which is being upgraded to Federal Interstate Route #99 provides access to Pennsylvania and southern markets. Federal Interstate Route #390 provides a direct route to Rochester.

Elmira has railroad facilities on the main line of Norfolk Southern. Eight daily freight connections are provided in routes to New York, Hoboken, New Jersey and Chicago.

Bus services, both local and regional, are available to residents. Bus transportation is provided by the County by Mass Transit. Mass Transit provides routes to a five county area. Short Line and Capital Trailways also offer services with connecting routes throughout New York and surrounding states.

LONG-TERM FINANCIAL PLANNING

Like most upstate New York communities, Chemung County has experienced erratic sales tax collections over the past several years. This, combined with slow full value growth in property values and raising expenses, prompted county administration to develop a five-year financial plan to stabilize operations and avoid the necessity of significant tax increases or service cuts. The plan consisted of revenue enhancements as well as cost controls.

The primary revenue enhancement was to change the sales tax distribution formula. Over a four year period, beginning in 2015, the County's share of sales tax collections would increase from 62.5% to 75%. Based on the actual receipts for 2014 this will generate an additional \$7.5 million annually when fully implemented. To ease the potential burden on other municipalities the County has offered various shared service opportunities.

To control expenses the County has, with union approval, implemented a new hire plan in most bargaining units whereby all new hires will not receive step increases. The starting hourly rates were also scaled back. These changes will allow the County to control the growth in personnel costs. All new employees will also be Tier 6 in the New York State Retirement System which requires a much smaller employer contribution.

To assist other municipalities the County has entered into shared service agreements with the City of Elmira, the Town of Big Flats, the Town of Elmira and the Village of Horseheads. These agreements will reduce costs for these municipalities without significantly increasing costs for the County.

Though the County has experienced general fund deficits in 2013 and 2014, these deficits were within the parameters of the five-year plan which called for the use of some fund balance during implementation.

ACKNOWLEDGEMENT

The presentation of this report would not have been possible without the hard work and dedication of the Treasurer's Office staff. We would also like to acknowledge the hard work and professionalism of our independent auditors, EFP Rotenberg, LLP, in this effort.

Respectfully Submitted,

Joseph E. Sartori, CPA
County Treasurer

The Government Finance Officers Association
of the United States and Canada

presents this

AWARD OF FINANCIAL REPORTING ACHIEVEMENT

to

Office of the Treasurer
County of Chemung, New York

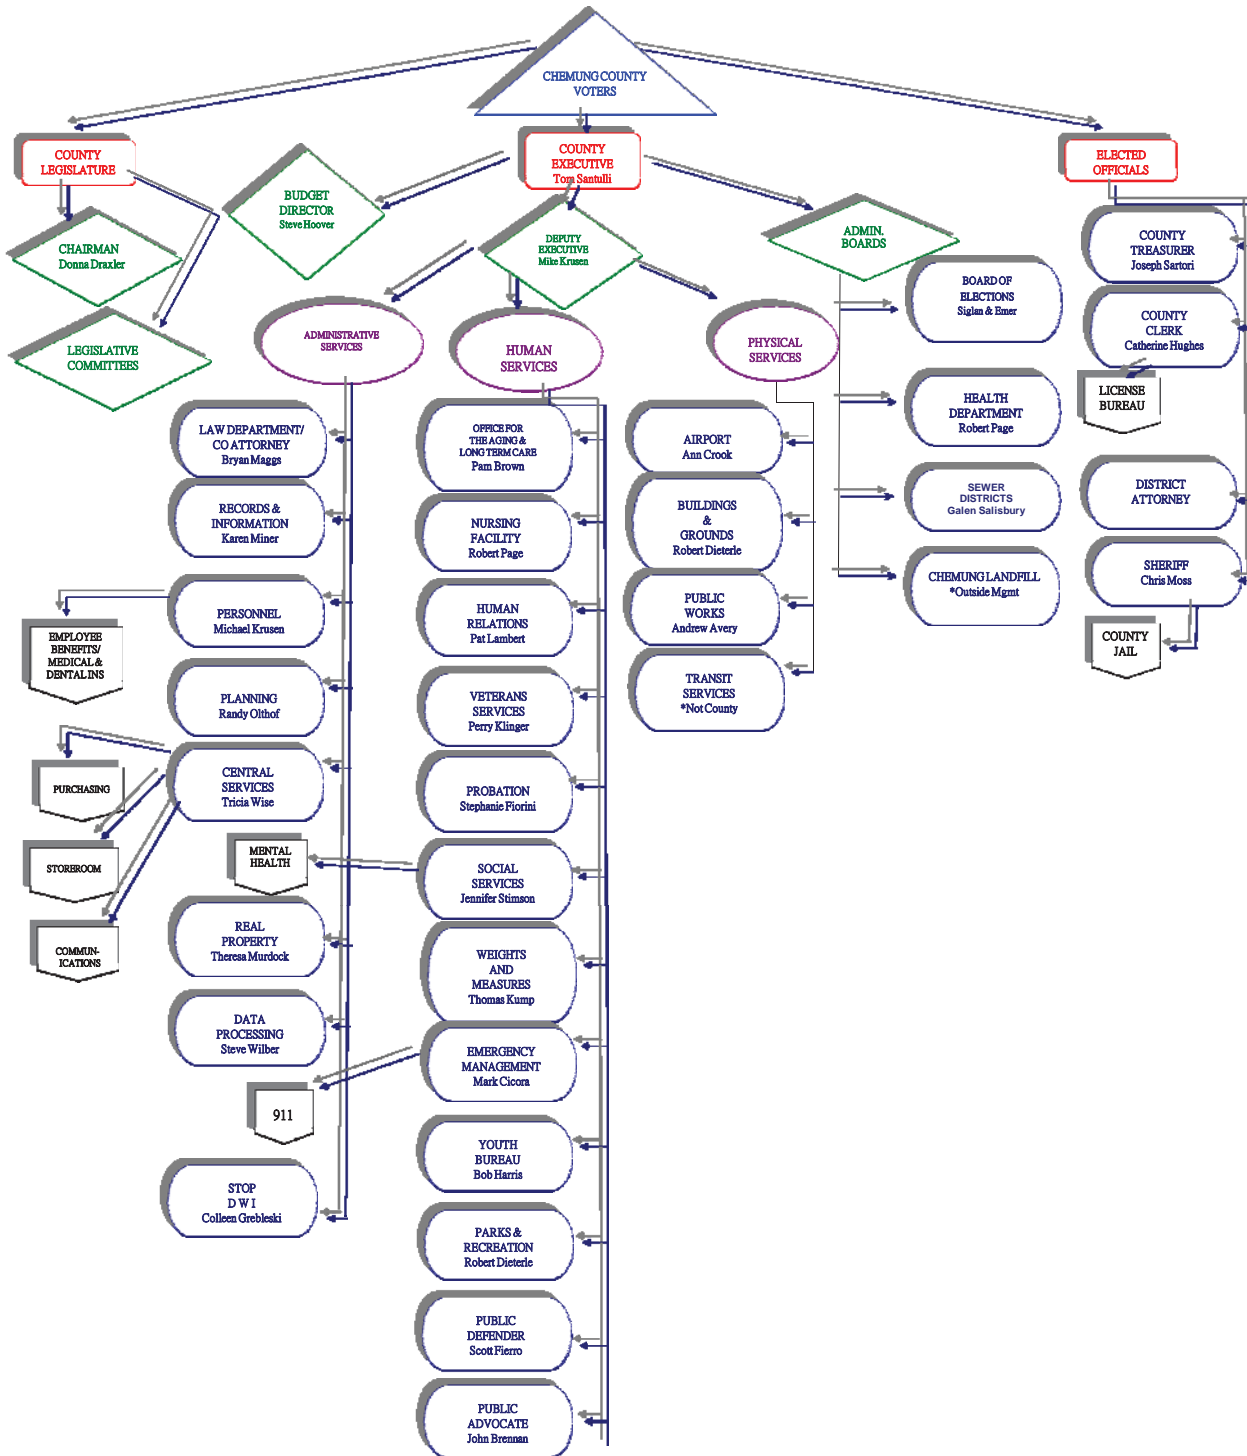

The award of Financial Reporting Achievement is presented by the Government Finance Officers Association to the individual(s) designated as instrumental in their government unit achieving a Certificate of Achievement for Excellence in Financial Reporting. A Certificate of Achievement is presented to those government units whose annual financial reports are judged to adhere to program standards and represents the highest award in government financial reporting.

FINANCIAL SECTION
Independent Auditors' Report

INDEPENDENT AUDITORS' REPORT

To the Members of the County Legislature
County of Chemung - State of New York
Elmira, New York

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Chemung - State of New York, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County of Chemung - State of New York's basic financial statements as listed in the table of contents. We did not audit the financial statements of the Chemung County Nursing Facility, which is both a major fund and 15 percent, 0 percent and 78 percent, respectively, of the assets, net position, and revenues of the business-type activities. We did not audit the financial statements of the Chemung County Soil and Water Conservation District, which is both a major fund and 10 percent, 11 percent, and 3 percent, respectively, of the assets, net position, and revenues of discretely presented component units.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Chemung County Nursing Facility, which is both a major fund and 15 percent, 0 percent, and 78 percent, respectively, of the assets, net position, and revenues of the business-type activities. We did not audit the financial statements of the Chemung County Soil and Water Conservation District, which represents 10 percent, 11 percent, and 3 percent, respectively, of the assets, net position, and revenues of discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Chemung County Nursing Facility and the Chemung County Soil and Water Conservation District, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Chemung County Nursing Facility were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Chemung - State of New York, as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule and schedule of funding progress for other postemployment benefits obligation on pages 3 - 13, 52 - 53, and 54, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Chemung - State of New York's basic financial statements. The introductory section, other supplementary information, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information on pages 56 - 65 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections on pages I - IX and 66 - 102, respectively, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 23, 2015 on our consideration of the County of Chemung - State of New York's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Chemung - State of New York's internal control over financial reporting and compliance.

FINANCIAL SECTION
Management's Discussion and Analysis

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

Introduction

Our discussion and analysis of the County of Chemung - State of New York's (the "County") financial performance provides an overview of the County's financial activities for the fiscal year ended December 31, 2014. It also provides a description and understanding of the various financial statements and other financial and statistical information contained herein. This section is only an introduction and should be read in conjunction with the County's basic financial statements, which immediately follow this section.

Financial Highlights

- The County's net position, as of December 31, 2014, in the government-wide statements amounted to \$95,647,826 for all governmental activities. The unrestricted net position was \$17,171,493 and the net investment in capital assets was \$78,476,333 as of December 31, 2014.
- The County's net position, as of December 31, 2014, in the government-wide statements amounted to \$32,167,471 for all business-type activities. The unrestricted net position was a deficit of \$9,062,297, the net investment in capital assets was \$40,384,829 and \$844,939 was restricted as of December 31, 2014.
- The "current ratio", which is an indicator of liquidity, for governmental activities was 1.93 and 2.31 as of December 31, 2014 and 2013, respectively.
- The "current ratio", which is an indicator of liquidity, for business-type activities was 0.74 and 0.80 as of December 31, 2014 and 2013, respectively.
- Governmental activities net position decreased by \$3,199,601 or 3.24% in 2014, as compared with a decrease of \$1,215,953 or 1.22% in 2013.
- Business-type net position decreased by \$534,835 or 1.64% in 2014, as compared with an increase of \$444,715 or 1.38% in 2013.

Overview of the Financial Statements

The discussion and analysis provided here is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to the basic financial statements. This report also includes required and other supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The statement of net position presents financial information on all of the County's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. Net position is classified into three components as follows:

Net Investment in Capital Assets - This amount of net position reports the difference between capital assets and the outstanding balance of debt issued to purchase or construct capital assets, with adjustments for premiums/discounts on debt issuances, debt related outflows/inflows and unspent debt proceeds.

Restricted Net Position - This amount is restricted by external creditors, grantors, contributors or laws or regulations of other governments.

Unrestricted Net Position - This amount is all net position that is not invested in capital assets or restricted net position.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues, governmental activities, from other functions that are intended to recover all or a significant portion of their costs through user fees and charges, business-type activities. The governmental activities of the County include general government support, education, public safety, health, transportation, economic assistance, culture and recreation, home and community services, and debt interest. The business-type activities of the County include operation of the Chemung County Nursing Facility, operations of the Elmira-Corning Regional Airport and activities conducted by the Chemung Tobacco Asset Securitization Corporation.

The government-wide financial statements include not only the County itself, known as the primary government, but also legally separate component units for which the County is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. The Chemung County Industrial Development Agency and the Chemung County Soil and Water Conservation District, although legally separate, function for all practical purposes as departments of the County, and therefore have been included as component units of the County.

The government-wide financial statements can be found on pages 14 - 15 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains six governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general and capital projects funds, which are considered to be the County's only major funds as defined by the Governmental Accounting Standards Board Statement No. 34. Data from the other four funds are combined into a single aggregated presentation as total nonmajor funds. These include, solid waste, road machinery, sewer and county road. Individual fund data for the nonmajor funds is provided in the form of combining statements in the combining and individual fund statements and schedules in the other supplementary information section of this report.

The County legally adopts an annual budget for all governmental funds. Budgetary comparison statements have been provided to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 16 - 19 of this report.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

Proprietary Funds

The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the Chemung County Nursing Facility, the Elmira-Corning Regional Airport and the Chemung Tobacco Asset Securitization Corporation. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for the workers' compensation and self insurance funds. Because internal service funds predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Chemung County Nursing Facility, the Elmira-Corning Regional Airport and the Chemung Tobacco Asset Securitization Corporation, all of which are considered to be major funds of the County. Conversely, both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the combining and individual fund statements and schedules in the other supplementary information section of this report. The basic proprietary fund financial statements can be found on pages 20 - 22 of this report.

Fiduciary Fund

The fiduciary fund is used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for the fiduciary fund is much like that used for proprietary funds.

The County maintains one type of fiduciary fund. The agency fund reports resources held by the County in a custodial capacity for individuals, private organizations and other governments. Agency funds have no measurement focus. The fiduciary fund financial statement can be found on page 23 of this report.

Component Units

The discretely presented component unit financial statements include legally separate organizations for which the primary government is not financially accountable but are reported based on the nature and significance of their relationship with the primary government. The discretely presented component unit financial statements can be found on page 24 - 25 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 26 - 51 of this report.

Other Financial Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information. This includes a budgetary comparison schedule for the general fund and a schedule of funding progress for other postemployment benefits obligation. Also included in this section are the notes to the required supplementary information. Required supplementary information can be found on pages 52 - 55 of this report.

Presented as other supplementary information, the combining statements for the nonmajor funds and internal service funds and budgetary comparison schedules for the capital projects fund, solid waste fund, county road fund, road machinery fund, and sewer fund are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 56 - 65 of this report.

The largest portion of the County's net position reflects its investment in capital assets. The County uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the County's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of the County's net position is unrestricted and may be used to meet the government's ongoing obligations to its citizens and creditors.

Comparative Expenses by Function

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

Governmental Activities Analysis

During 2014, governmental activities had an overall decrease in net position of \$3,199,601, which represents a 3.24% decrease from 2013. Overall revenues for the County were down from the previous period. Beginning in 2014, the County no longer provided healthcare coverage to the surrounding towns and villages with less than 50 employees due to requirements associated with the Affordable Care Act. As a result, charges for services experienced a large decrease from 2013. The County receives revenues from varying sources. Major funding sources and their relationship to total revenue for the year are as follows:

2014 Revenues by Source

2013 Revenues by Source

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

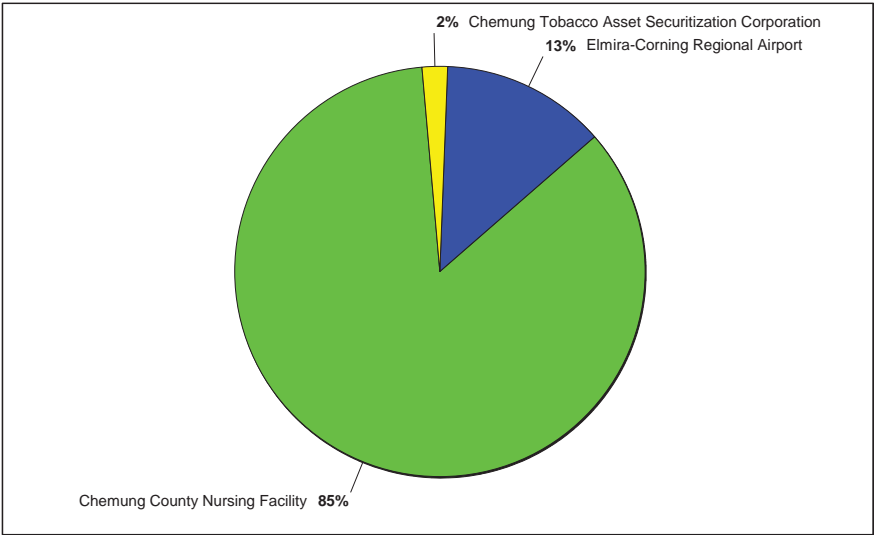

Business-type Activities Analysis

Overall, revenues were stable from year to year, increasing 2.43%. The New York State Public Health Law has provided for payments to non-state operated public residential healthcare facilities, such as the Chemung County Nursing Facility, based on Medicaid days. This funding, which is an "Inter-Governmental Transfer (IGT)", decreased by just over \$500,000 in 2014. Charges for services in the Chemung County Nursing Facility were fairly stable, increasing by 4.99% or \$839,851. The Elmira-Corning Regional Airport experienced record high enplanements in 2014. Charges for services for the Elmira-Corning Regional Airport were up approximately 6.25% or \$206,809. Expenses of the business-type activities increased by 4.51% in comparison to 2013, as a result of increased employee benefit and contractual expenses in the Chemung County Nursing Facility. During the year ended December 31, 2014, overall net position of the business-type activities decreased \$534,835. The Chemung County Nursing Facility's net position increased by \$153,884, the Elmira-Corning Regional Airport's net position decreased by \$998,270 and the Chemung Tobacco Asset Securitization Corporation's net position increased by \$309,551.

2014 Revenues by Fund

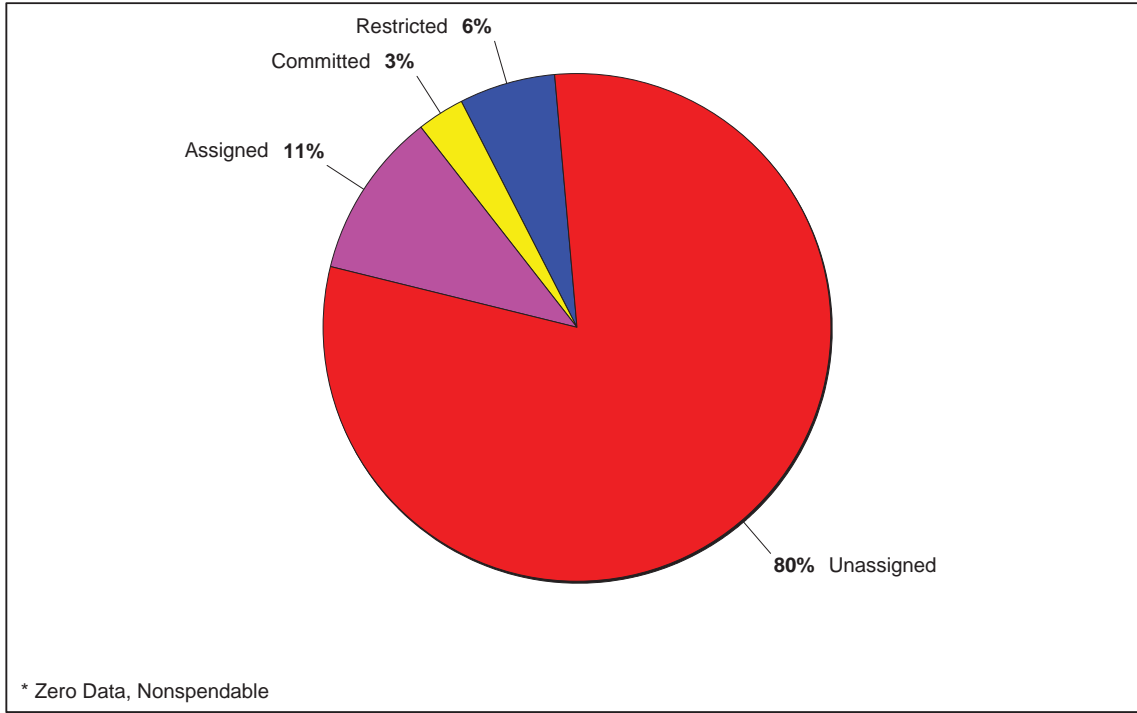

2013 Revenues by Fund

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

Financial Analysis of Governmental Funds

At December 31, 2014, the County's governmental funds reported combined fund balances of \$28,258,863, a decrease of \$2,520,490 from December 31, 2013. The County experienced significant increases in sales tax revenues and state aid with offsetting decreases in department income and federal aid. The fund balance of the County's general fund decreased by \$1,325,871 to \$27,438,939 in the year ended December 31, 2014. The County's only other major fund, the capital projects fund, experienced a deficit of \$438,919 to increase the total deficit fund balance to \$2,435,629 at December 31, 2014. \$22,649,493 of the County's total governmental fund balance constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is either nonspendable, restricted, committed, or assigned. The components of fund balance were as follows as of December 31, 2014:

Capital Asset and Debt Administration

Capital Assets - The County's net investment in capital assets for governmental and business-type activities as of December 31, 2014 was \$118,861,162. This represents an increase of \$2,846,309 from 2013. Capital assets include land, land improvements, buildings, building improvements, furniture, equipment, vehicles, construction in progress, infrastructure and accumulated depreciation. Infrastructure includes highways, bridges, airport runways and sewers. In accordance with GASB 34, these financial statements include all infrastructure constructed from 1980 through 2014. Major capital additions included a county-wide fire service radio system replacement in the amount of \$4,238,213, airport electrical vault relocation amounting to \$917,227 and the reconstruction of County Route 6 at a cost of \$732,597. See Note 5 to the basic financial statements beginning on page 36 for further information on the County's capital assets.

Bonds Payable - The County had total long-term general obligation bonds payable, net of bond premiums and discounts, for governmental and business-type activities of \$50,889,838 as of December 31, 2014. Total bonds payable increased by \$138,182 from the balance of \$50,751,656 as of December 31, 2013, as a result of the issuance of Public Improvement Bonds, 2014, at a face value of \$4,916,077. The 2014 bonds were issued to finance various highway, buildings and grounds, sewer and transit capital improvements. Due to its strong and healthy local economy, the County has maintained a credit rating of A1 from Moody's Investor Service for 2014 and 2013. See Note 11 to the basic financial statements beginning on page 40 for further information on the County's bonds payable.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

Major Fund Budgetary Highlights

The most significant general fund differences between the County's budgeted amounts and actual results were as follows:

	<u>Modified Budget</u>	<u>Actual Results</u>	<u>Variances</u>
Revenues			
Non property tax items	\$ 58,998,619	\$ 60,153,108	\$ 1,154,489
Department income	\$ 12,956,899	\$ 11,550,095	\$ (1,406,804)
Expenditures			
Law enforcement - other	\$ 6,594,467	\$ 5,823,196	\$ 771,271
Department of social services - other	\$ 56,041,970	\$ 54,376,105	\$ 1,665,865
Other Financing Sources (Uses)			
Interfund transfers in	\$ 4,674,911	\$ -	\$ (4,674,911)

For the year ended December 31, 2014, the positive variance in non property tax items was due to better than expected net gains in the sale of property acquired for taxes of approximately \$55,000 and better than budgeted sales tax collections of roughly \$930,000. The 2014 budget for gain on sale of property acquired for taxes was based on actual results from 2013. The actual results for this revenue can fluctuate significantly from year to year based on the number and quality of properties foreclosed. Sales tax collections were lower than expected in 2012 and 2013 so the budget for 2014 was flat based on actual 2013 collections. Actual collections for 2014 were 3.79% higher than 2013 which resulted in the positive budget variance.

Department income was less than budgeted because the facilities' lease budget included an additional \$1 million as part of an infrastructure commitment buy-out in the landfill lease with Casella Waste Management. The last payment of the infrastructure buy-out was received in 2013. Consequently, the actual lease payment for 2014 was \$1 million lower than the 2014 budget.

Budgets for both road patrol and correctional staff in the jail were based on reasonable estimates of overtime hours required. In both cases the number of overtime hours were not as great as anticipated. The favorable variance in payroll costs described above resulted in a similar favorable variance in employee benefit costs such as pension and employee healthcare costs. Additionally, the overall cost of healthcare was lower than anticipated which resulted in further cost reductions in law enforcement expenditures.

Recipient expenditures for temporary assistance, safety net, child protective services, early intervention, transportation and pre-school were a combined \$2,680,000 under budget. Employee health insurance was \$820,000 under budget. The local share of Medicaid was \$1,800,000 over budget due to the unbudgeted local share of the Inter-Governmental Transfer payment to the Chemung County Nursing Facility. Therefore, other department of social services expenditures came in significantly under budget.

Interfund transfers in and out of the general fund relate to reimbursement payments to and from other funds. These transfers are dependent on several items including the timing and cash flow requirements of other funds. Interfund transfers in were not necessary in 2014.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Management's Discussion and Analysis
For the Year Ended December 31, 2014

Other Budgetary Highlights

State and federal aid was less than expected by the County during the current year. Many Department of Social Services programs were budgeted based on full allocation of these programs. However, many of these state and federal aid programs are based on reimbursement for actual expenditures incurred by the County. In 2014, the County's expenditures on these programs were less than expected, and less than budgeted, and therefore the related state and federal aid was accordingly reduced.

Economic Outlook and Future Benefits

The economy in New York State is continuing to improve though most of Upstate is still lagging behind New York City and the Hudson Valley area. In 2014, unemployment statewide was only slightly above the national average at 5.8%. The unemployment rate in the County was 6.1%

After two years of declining sales tax revenue the County experienced moderate growth of 3.79% in 2014. Though the growth was encouraging, the overall collections were still \$1.5 million lower than the record collections of 2011. Though it is still early, indications are that 2015 is continuing to show a positive trend.

To address the negative trends in sales tax and increases in expenses such as employee benefits, County leadership developed a financial restructuring plan in 2013. The primary components of the plan were the reduction, through attrition, of 30 full-time equivalent positions in 2014 and a change in the sales tax formula to be phased in from 2015 to 2018. The change in the sales tax formula will increase the County share from 62.5% to 75%. The plan also called for the use of, up to, \$7 million in fund balance until the changes result in a structurally balanced budget. Fortunately, favorable variances in sales tax collections and health insurance expense resulted in an actual 2014 deficit of \$1.3 million compared to the \$4.3 million projected deficit. If these trends continue, the actual use of fund balance will be less than \$2 million.

The Chemung County Nursing Facility underwent a reorganization of the rehabilitation therapy services under a private contractor in order to increase revenues and to develop a long-range plan to control the escalation of wage and benefits. A contract agreement was negotiated with the CSEA, which is expected to control the wages and benefit costs of the Chemung County Nursing Facility. In addition, the IGT is expected to remain stable through at least 2017. As a result of these endeavors the Chemung County Nursing Facility has experienced surpluses over the last several years and as of the end of 2014 had completely repaid the advances made by the general fund.

In 2013, Allegiant Air began offering twice weekly service to Tampa/St. Petersburg and in February of 2014 United Airlines began twice daily service to Chicago's O'Hare Airport. The addition of these flights has resulted in a record number of enplanements in 2014. The trend for the future appears to be positive as well.

In 2015, Alfred Technology Resources Inc. (ATRI) will expand its Ceramics Corridor Incubator initially into 45,000 sq. ft. of the original Schweizer Aircraft plant in Big Flats. ATRI will invest \$1.2 million to upgrade utilities, extend the Southern Tier Network dark fiber service to the facility, and create five business "suites" that will house new high-tech start-up businesses. The first tenant, Micatu, an optical technology company, plans to expand into the facility in June 2015, while renovations are ongoing. Financial assistance has been secured through grants from Empire State Development, the Appalachian Regional Commission, and the Chemung County Industrial Development Agency. Conservatively, 50 new jobs are projected to be created. Alfred Technology Resources Inc. is a partner in the State's Regional Hotspot Initiative linking the technology development programs of Corning Incorporated, Cornell University, the University of Buffalo, and Binghamton University.

Retail sales continue to be a strong point of the County's economy. Late in 2014, Field and Stream opened a new retail outlet constructed on the site of the old Wal-Mart in Consumer Square adding to the over 3 million square feet of retail space in the Big Flats and Horseheads area. The County is the retail center of 5 counties in New York State and the northern tier of Pennsylvania.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position
December 31, 2014

Total Governmental Fund Balances		\$	28,258,863
<p>Amounts reported for governmental activities in the statement of net position are different because:</p>			
<p>Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds. These assets consisted of the following:</p>			
Land	\$	11,908,523	
Construction in progress		<u>6,316,479</u>	
Total capital assets - not depreciated			18,225,002
Land improvements		371,418	
Buildings and building improvements		56,897,692	
Infrastructure		104,425,936	
Furniture, equipment and vehicles		<u>35,501,421</u>	
Total depreciable assets		197,196,467	
Less, accumulated depreciation		<u>(97,565,950)</u>	
Total capital assets - net of depreciation			99,630,517
<p>Property taxes receivable not considered available for current operations are deferred inflows in the government funds but recognized as revenue in the statement of activities.</p>			
			3,938,749
<p>Certain liabilities are not due and payable in the current period and therefore are not reported in the funds. These liabilities consisted of the following:</p>			
Bonds payable - net		(37,530,890)	
Capital leases		(1,245,562)	
Compensated absences		(2,666,279)	
Accrued interest payable		(285,658)	
OPEB liability		<u>(14,661,808)</u>	
Total liabilities			(56,390,197)
<p>Other differences:</p>			
<p>Internal service funds are used to allocate collective costs across funds. The assets, liabilities and deferred inflows/outflows of resources of these internal services funds are included in the governmental activities statement of net position but not in the governmental fund balances. The net balance of those internal service funds are as follows:</p>			
Workers' compensation fund		1,486,577	
Self insurance fund		<u>155,228</u>	
Total internal service funds			1,641,805
Advance refunding proceeds - net			<u>343,087</u>
Net Position of Governmental Activities		\$	<u>95,647,826</u>

The accompanying notes are an integral part of these financial statements.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of the
Governmental Funds to the Government-Wide Statement of Activities
For the Year Ended December 31, 2014

Net Change in Fund Balances - Total Governmental Funds		\$ (2,520,490)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are the following:		
Capital outlay	\$ 13,503,523	
Depreciation expense	<u>(7,402,498)</u>	
Excess of capital outlay over depreciation		6,101,025
Governmental funds report only the proceeds received from the disposal of assets. In the statement of activities, a gain or loss is recorded for each disposal. This amount is the loss on the disposal of capital assets.		
		(48,716)
Receipt of bond proceeds is a revenue in the governmental funds, but the receipt increases the liabilities in the statement of net position. In the current period, these amounts are the following:		
Debt proceeds		(4,916,077)
Repayment of capital leases are reported as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In the current period, these amounts are the following:		
Additions to capital lease		(1,557,393)
Amortization of capital lease		311,831
Premiums and discounts are reported as revenues and expenditures in the governmental fund financial statements. These are capitalized in the government-wide financial statements and amortized over the life of the debt.		
Amortization of bond premiums/discounts		89,774
Repayment of long-term debt is reported as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In the current period, these amounts are the following:		
Debt principal repayments		3,610,272
Advance refunding proceeds are reported as other financing sources in the governmental funds upon refunding of debt, but are capitalized for reporting purposes in the government-wide statement of net position. Amounts will be amortized over the lives of the related debt.		
Amortization of advance refunding proceeds		(99,597)
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. In the current period, these amounts are the following:		
Change in compensated absences	(1,079)	
Change in accrued interest	30,004	
Change in OPEB liability	(2,638,661)	
Change in unavailable property tax revenues	<u>(151,529)</u>	
		(2,761,265)
Internal service funds are used by management to charge the costs of insurance to individual funds. The net revenue (expense) of the internal service fund is reported with the governmental activities.		
		<u>(1,408,965)</u>
Change in Net Position of Governmental Activities		\$ <u>(3,199,601)</u>

The accompanying notes are an integral part of these financial statements.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

Financial Reporting Entity

The County of Chemung - State of New York (the "County") was incorporated by an act of the State Legislature on March 29, 1836. The County operates under a charter adopted by the County Board of Supervisors under local law number 3 in 1973 and effective January 1, 1974. Under the charter, the position of County Executive was established. The Executive is elected to a four year term and is responsible for overall County operations. The charter also established a County Legislature consisting of fifteen members, each elected to four year terms. The Legislature is responsible for adopting a budget, approving amendments to the budget, enacting local laws and approving tax rates.

The County provides the following basic services: educational assistance, economic assistance, highway construction and maintenance, law enforcement, traffic safety, emergency management services, parks, youth and aging services, mental health, public health, and environmental control. All governmental activities and functions performed by the County are its direct responsibility.

The financial reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements of the County are not misleading. The primary government for the County consists of all funds, departments, boards, and agencies that are not legally separate from the County. In evaluating the County as a reporting entity, management has included all component units in accordance with the Governmental Accounting Standards Board ("GASB") Statement No. 14, *Defining the Financial Reporting Entity* and Statement No. 61, *The Financial Reporting Entity: Omnibus*. The decision to include a potential component unit in the County's reporting entity is based on several criteria set forth in GASB Statements No. 14 and No. 61 including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities considered in determining the County's reporting entity.

Chemung County Industrial Development Agency, Inc. - (the "Agency") is a Public Benefit Corporation created by state legislation to promote industrial and economic welfare for County inhabitants. The Agency is considered legally separate from the County. The Agency's Board of Directors are appointed or removed by the County Legislature. The Agency's finances are generally restricted to amounts generated by project revenue bonds and such bonds are only secured to the extent of the assets acquired for the related project. Debt of the Agency is not an obligation of the County. Based on the authority that the County Legislature has to appoint or remove the Agency's Board of Directors and the significant influence the County Legislature can impose, the Agency is considered a component unit and is discretely presented. The Agency uses proprietary accounting.

Chemung County Soil and Water Conservation District - (the "District") is a County-wide district created by the County Legislature to provide for the control and conservation of soil and water resources. The District is considered legally separate from the County. The District's Board of Directors are appointed or removed by the County Legislature. The County provides a portion of the District's funding. The County's subsidy to the District for 2014 was \$148,500. Based on the authority that the County Legislature has to appoint or remove the District's Board of Directors and the significant influence the County Legislature can impose, the District is considered a component unit and is discretely presented. The Soil and Water Conservation District uses proprietary accounting.

Chemung Tobacco Asset Securitization Corporation - (the "Corporation") is described in detail in Note 16 of these financial statements. The Corporation is considered legally separate from the County. The Corporation's Board of Directors are appointed or removed by the County Legislature. Although legally separate from the County, the Corporation is a component unit of the County and accordingly, is presented in the County's financial statements as a blended component unit due to the fact that it exclusively serves the County.

Complete financial statements of individual component units can be obtained from their respective administrative offices:

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Basis of Presentation

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to government units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The County's most significant accounting policies are described in the following paragraphs.

The County's basic financial statements consist of government-wide financial statements, including the statement of net position and the statement of activities, and fund financial statements which provide a more detailed level of information.

Government-Wide Financial Statements

The government-wide financial statements, which consist of the statement of net position and the statement of activities, report information on all of the non-fiduciary activities of the primary government. Governmental activities, which are supported primarily through taxes or intergovernmental revenues, are reported separately from business-type activities, which are intended to be funded primarily through fees and charges for goods or services. The fiduciary fund is excluded from the government-wide financial statements. Internal service activity between the internal service fund and the government has been eliminated in the government-wide financial statements and the remaining internal service fund amounts are shown as governmental activities on the statement of net position and the statement of activities.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each program or function of the County's governmental and business-type activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Indirect expenses, which include centralized services and administrative overhead, are allocated among the programs, functions and segments using a full cost allocation approach and are combined with direct expense activity.

Program revenues include charges paid by recipients of goods or services offered by the program as well as grants and contributions that are restricted to meet the operational or capital requirements of the particular program. Revenues not classified as program revenues are presented as general revenues of the County. The comparison of expenses with general program revenues identifies the extent to which each governmental program or business-type activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements

The accounting system is organized and separated on a fund basis. A fund is defined as a fiscal accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities of the government and attaining certain objectives in accordance with special regulations, restrictions or limitations. The emphasis of fund financial statements is on major funds, each of which are displayed in a separate column. All remaining funds are aggregated and reported as total nonmajor funds. There are three categories of funds: governmental, proprietary, and fiduciary.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Governmental Funds - Governmental funds are funds through which most governmental functions are financed. The major governmental funds of the County are the general fund and the capital projects fund. The general fund is the principal operating fund and includes all operations not required to be recorded in other funds. All major construction projects are recorded in the capital projects fund. Nonmajor funds are combined and included in the "total nonmajor funds" column on the governmental fund financial statements.

Proprietary Funds - Proprietary funds are used to account for ongoing activities which are similar to those often found in the private sector. The County has the following major proprietary funds:

Enterprise Funds - Enterprise funds are used to account for the Chemung County Nursing Facility, the Elmira-Corning Regional Airport and the Chemung Tobacco Asset Securitization Corporation.

Internal Service Funds - Internal service funds are used to account for the self insurance and workers' compensation funds that record assessments charged and benefits paid to participating governments for insurance.

Fiduciary Fund - The fiduciary fund is used to account for the agency fund which includes assets held by the County in a trustee capacity or as an agent for individuals, private organizations, and other governments. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations..

Measurement Focus and Basis of Accounting

Measurement focus refers to what is being measured. Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Accrual Basis - The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The economic resources measurement focus means that all of the assets, liabilities and deferred outflows/inflows associated with the operations (whether current or non-current) of the County are included in the statement of net position and that the statement of activities presents increases (revenues) and decreases (expenses) in total net position.

Modified Accrual Basis - The governmental fund financial statements are accounted for using the modified accrual basis of accounting and use the current financial resources measurement focus. Under the modified accrual basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. Measurable means that the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to finance any of the liabilities of the current period. For the County, available means expected to be received within sixty days of year end. With this measurement focus, only current assets, current liabilities and deferred outflows/inflows are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

A reconciliation accompanies the governmental fund financial statements to reconcile and explain the differences between fund balances, as presented in these statements, and net position, as presented in the governmental activities column of the government-wide financial statements.

In accordance with GASB Statement No. 36, *Recipient Reporting for Certain Shared Nonexchange Revenues*, certain state-levied locally shared taxes and fees including motor vehicle license fees, sales tax and mortgage tax are considered voluntary non-exchange transactions. These types of transactions may be accrued if receipt is expected within six months.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Use of Estimates

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and, as such, include amounts based on informed estimates and judgments of management with consideration given to materiality. Actual results may differ from those estimates.

Cash and Cash Equivalents

For purposes of reporting in the statement of net position, the balance sheet and the statement of cash flows, the County includes all cash accounts and highly liquid debt instruments purchased with an original maturity of three months or less in cash and cash equivalents. The County invests excess cash in certificates of deposit with high credit quality financial institutions and, by policy, requires collateral for investments not covered by federal deposit insurance.

Investment Policy

The County has a written investment policy approved by the County Legislature. This policy has been established in accordance with New York State municipal law. Accordingly, funds must be deposited in Federal Deposit Insurance Company ("FDIC") insured accounts. The policy also requires financial institutions to provide securities for all deposits in excess of maximum FDIC coverage. The County Treasurer is also authorized to invest excess funds in instruments permitted under New York State municipal law.

Prepaid Expenditures/Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as an expenditure/expense when consumed rather than when purchased.

Inventories

Inventories, consisting of supplies for various departments, are stated at the lower of cost (first-in, first-out method) or market.

Internal Balances

Short-term interfund receivables and payables are classified as current assets and liabilities in the fund financial statements. Such internal balances in the government-wide financial statements are included only between governmental activities and business-type activities and eliminated.

Interfund Transfers

Interfund transfers are reported as other financing sources/uses in governmental funds and as nonoperating revenues/expenses in enterprise funds. Such internal transfers in the government-wide financial statements are included only between governmental activities and business-type activities and eliminated. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as an interfund transfer. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Capital Assets

Capital assets are assets which are associated with and generally arise from governmental activities. Capital assets result from expenditures in governmental funds. Capital assets are reported as assets in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets purchased and used by the enterprise funds are recorded in both the business-type activities column in the government-wide statement of net position and in the respective fund financial statements.

The County has established a capital asset policy which defines capital assets and establishes criteria for capitalization and depreciation. Capital assets are recorded at historical cost for purchased or constructed assets and at estimated fair market value for donated assets. All capital assets are depreciated, except construction in progress, works of art, historical treasures and land. The policy also establishes a capitalization threshold, which defines the dollar threshold for capitalizing assets and a useful-life range for each capital asset class. Depreciation is calculated using the straight-line method.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

	<u>Capitalization Threshold</u>	<u>Years</u>
Construction in progress	All assets	N/A
Land	All assets	N/A
Land improvements	\$5,000	20-40
Buildings	\$5,000	10-80
Building improvements	\$5,000	10-80
Infrastructure	\$5,000	6-100
Furniture, equipment and vehicles	\$5,000	5-20
Works of art & historical treasures	\$5,000	N/A

Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities are reported on the government-wide financial statements in their entirety. Business-type activities and proprietary fund accounts payable and accrued liabilities are recognized when incurred and payable. Governmental fund payables and accrued liabilities are recognized as fund liabilities when incurred, if measurable.

Encumbrances

Encumbrances are a budgetary basis of accounting. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. Encumbrance accounting, involve purchase orders, contracts and other commitments for expenditures of funds and are recorded in order to reserve that portion of the applicable appropriation. Encumbrances do not constitute expenditures or liabilities. The County did not have any encumbrances at year end.

Long-Term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities columns in the statement of net position. Long-term debt is recorded net of applicable premiums and discounts, which are amortized, as a component of interest expense, over the life of the debt using the effective interest rate method. Advanced refunding proceeds resulting from the refunding of long-term debt are recorded as a deferred outflow of resources and amortized, as a component of interest expense, over the shorter of the life of the new debt or life of the refunded debt. The costs of issuing debt, excluding insurance, are expensed in the government-wide statement of activities and in the fund financial statements. The face amount of debt issued is reported as an other financing source. Premiums and discounts received on debt issuances are reported as other financing sources and uses in the governmental fund financial statements.

Compensated Absences, Vacation and Sick Leave

Employees earn a specified amount of vacation time in each pay period based on their years of service. Employees can carry-forward up to thirty-five vacation days from year to year. Unused vacation time at year end is multiplied by the employee's hourly rate at year end to establish the County's liability for unused vacation time.

Sick time is awarded on a monthly basis to those employees on the payroll for more than 50% of the month. Employees can carry forward up to 250 sick hours. Employees hired before January 1, 1981 receive a percentage of their unused sick time upon separation from service with the County. Employees hired after January 1, 1981 receive a percentage of their unused sick time only upon retirement. The sick time liability was estimated by taking a percentage of unused sick time multiplied by the hourly rate for employees in retirement tiers 1 through 3. Tier 3 ended in 1983 and the estimate would therefore, include all individuals hired prior to January 1, 1981 as well as most of those employees eligible for retirement based on age and years of service.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Net Position and Fund Balance

Government-Wide Financial Statements - Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted net position to have been depleted before unrestricted net position is applied. Net position on the statement of net position includes the following:

Net Investment in Capital Assets - The component of net position that reports the difference between capital assets and the outstanding balance of debt issued to purchase or construct capital assets, with adjustments for premiums/discounts on debt issuances, debt related outflows/inflows and unspent debt proceeds.

Restricted - The components of restricted net position report amounts restricted by external parties. The components that make up the County's restricted net position include the following:

Restricted FAA Cash - The County, with the approval of the Federal Aviation Administration (FAA), began collecting passenger facility fees ("PFC") from all passengers departing from the Elmira-Corning Regional Airport. These fees may only be used to fund projects approved by the FAA. In addition, any funds derived from the sales of minerals or mineral rights on airport land can only be used for airport purposes in accordance with FAA regulations. Accordingly, funds received from PFC collections and from the sale of gravel and natural gas rights have been recorded as restricted in these financial statements. The amount of FAA cash restricted at year end December 31, 2014 amounted to \$196,691.

Restricted Soil and Water Grants - The Chemung County Soil and Water Conservation District had held cash which is restricted by donors for the use of equipment purchases, a roof barnyard, trout unlimited grant, steam and canal management and aquatic purchases. The restricted soil and water grants at December 31, 2013 amounted to \$340,446.

Restricted for Liquidity Reserves - Chemung Tobacco Asset Securitization Corporation is required to place a portion of the bond proceeds in trust as a reserve to partially secure payments to the bond holders. The restriction will be released as the bonds mature and are paid. The amount of liquidity reserve restricted at year end December 31, 2014 amounted to \$648,248.

Unrestricted - The difference between the assets, liabilities and deferred outflows/inflows that is not reported as restricted or net investment in capital assets.

Net Deficits - Net deficits occur when total fund liabilities and deferred inflows exceed total fund assets and deferred outflows. At December 31, 2014, the County had net deficits in the capital projects fund, Chemung County Nursing Facility and Chemung Tobacco Asset Securitization Corporation. Reducing these deficits is a priority for the County.

Capital Projects Fund - The capital projects fund had a fund deficit of \$2,435,629 at December 31, 2014. The net deficit resulted from amounts owed to the capital projects fund from other funds at year end and due to the status of the current projects. It is expected that these amounts will be repaid within the next fiscal year, eliminating the deficit.

Chemung County Nursing Facility - The Chemung County Nursing Facility had a deficit of \$2,766,285 at December 31, 2014. The Chemung County Nursing Facility increased its net position in 2014 by \$153,884 as a result of the County's review of operations, which have assisted in making gains in operating efficiencies.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Chemung Tobacco Asset Securitization Corporation - The net deficit of the Chemung Tobacco Asset Securitization Corporation ("TASC") at the end of 2014 was \$4,066,127. The Chemung TASC increased its net position in 2014 by \$309,551. This deficit results from the full accrual accounting for the Chemung TASC. Accrual accounting requires the recording of the full amount of the bonds payable at the time the bonds are issued, while the revenue is recognized each year as it becomes available to pay the bonds. It is expected that the deficit will decline as the revenues related to the tobacco settlements are received.

Governmental Fund Financial Statements - In the governmental fund financial statements, the County records fund balance in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB Statement No. 54 improves the usefulness and clarity of fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable Fund Balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact.

Restricted Fund Balance - amounts with constraints placed on the use of resources by creditors, grantors, contributors, laws or regulations of other governments.

Committed Fund Balance - amounts constrained to specific purposes by the County itself, by adopting a formal resolution from the County Legislature. To be reported as committed, amounts cannot be used for any other purpose unless the County Legislature adopts a resolution to remove or change the constraint.

Assigned Fund Balance - amounts a government intends to use for a specific purpose. Intent can be expressed by the County Legislature or by an official or body to which the County Legislature delegates the authority. The County Legislature has delegated the authority to assign funds to the County Treasurer.

Unassigned Fund Balance - amounts that are available for any purpose.

For the classification of governmental fund balances, the County considers an expenditure to be made from the budgetary appropriations first when more than one classification is available.

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The following is a detailed summary of the different classifications of fund balance within the County:

Nonspendable

Nonspendable prepaid expenditures - Represents amounts that are not in a spendable form or are required to be maintained intact. These amounted to for all governmental funds as of December 31, 2014.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Restricted

Restricted unspent bond proceeds - Represents unexpended bond proceeds related to capital improvement projects. These amounted to \$1,578,012 for all governmental funds as of December 31, 2014. The unspent bond proceeds for the County consisted of the following at December 31, 2014:

- Public Improvement Bonds, 2014 - \$577,457
- Public Improvement Bonds, 2013 - \$948,326
- Public Improvement Bonds, 2012 - \$24,918
- Public Improvement Bonds, 2011 - \$27,311

Committed

Committed for DWI funds - Represents unexpended amounts from DWI fines, restricted by the County Legislature through formal resolution. This amounted to \$247,413 for all governmental funds as of December 31, 2014.

Committed for senior games - Represents amounts restricted by the County Legislature through formal resolution for the annual senior games. This amounted to \$12,766 for all governmental funds as of December 31, 2014.

Committed for transit projects - Represents amounts restricted by the County Legislature through formal resolution for transit projects. This amounted to \$7,623 for all governmental funds as of December 31, 2014.

Committed purchase agreement funds - Represents amounts received upon the closing of the Casella Waste agreement. These funds have been restricted by the County Legislature through formal resolution for future repayment upon completion of the contract. This amounted to \$508,003 for all governmental funds as of December 31, 2014.

Assigned

Assigned for solid waste - Represents assigned amounts strictly related to the operation and activities of the solid waste fund. This amounted to \$770,894 for all governmental funds as of December 31, 2014.

Assigned for road machinery - Represents assigned amounts strictly related to the operation and activities of the road machinery fund. This amounted to \$85,280 for all governmental funds as of December 31, 2014.

Assigned for sewer - Represents assigned amounts strictly related to the operation and activities of the sewer funds. This amounted to \$2,378,719 for all governmental funds as of December 31, 2014.

Unassigned

Unassigned fund balance consists of excess funds that have not been classified in the previous categories. All funds in this category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls. This amounted to \$22,649,493 for all governmental funds as of December 31, 2014.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise funds. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the funds. Revenues and expenses not meeting these definitions are reported as non-operating.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Property Taxes

County property taxes are levied annually as of January 1, payable without penalty until January 31. Unpaid taxes are advertised for tax sale beginning September 1, and property liens are obtained in October. Taxes for County purposes are levied together with taxes for town and special district purposes as a single bill. The towns and special districts receive the full amount of their levies annually out of the first amounts collected on the combined bills. The County assumes enforcement responsibility for all taxes levied in the towns and special districts. Unpaid village and school district taxes are turned over to the County annually for enforcement. Any such taxes remaining unpaid at year end are re-levied as County taxes in the subsequent year.

Sales Tax

Chemung County and the State of New York each currently impose sales and use tax. The State of New York imposes a sales and use tax of four percent and the County imposes an additional four percent for a total of an eight percent sales and use tax within the County. The County's portion of the sales and use tax is composed of an original three percent and an additional one percent authorized by State law. The County recognizes as sales tax revenue the entire four percent in the general fund. The subsequent sales and use tax distribution payments to cities, towns and villages are recognized in the general fund as general governmental expenditures.

Note 2. Deposits and Investments

The County Charter specifies that the County Treasurer is responsible for all deposits and investments in accordance with general municipal law and the County's investment policy. General Municipal Law, Section 10 provides that all deposits of the County including certificates of deposits and special time deposits, in excess of the amount insured under the provision of the Federal Deposit Insurance Act shall be secured:

- By a pledge of eligible securities: with an aggregate "market value", as provided by General Municipal Law, Section 10, equal to the aggregate amount of deposits from the categories designated as acceptable investments in the County investment policy.
- By an eligible irrevocable letter of credit issued by a qualified bank other than the bank with the deposits in favor of the County for a term not to exceed 90 days with an aggregate value equal to 140% of the aggregate amount of deposits and the agreed upon interest, if any. A qualified bank is one whose commercial paper and other unsecured short-term debt obligations are rated in one of the three highest rating categories by at least one nationally recognized statistical rating organization or by a bank that is in compliance with Federal minimum risk-based capital requirements.
- By an eligible surety bond payable to the County for an amount at least equal to 100% of the aggregate amount of deposits and the agreed upon interest, if any, executed by an insurance company authorized to do business in the State of New York, whose claims-paying ability is rated in the highest rating category by at least two nationally recognized statistical rating organizations.

Security on deposits and investments is categorized based on the level of credit risk. The categories of credit risk are defined as follows:

Category 1	Insured by the Federal Deposit Insurance Corporation ("FDIC") or securities held by the County or by an agent of the County in the County's name.
Category 2	Securities held by the pledging financial institution's trust department or an agent in the County's name.
Category 3	Uncollateralized or collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the County's name; or collateralized with no written collateral agreement.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

At year end, the carrying amount of the primary government's deposits was \$28,775,380, which excludes discretely presented component units. The following was the total deposit balance at December 31, 2014 classified in the applicable risk categories:

	<u>Total</u>	<u>Category 1</u>	<u>Category 2</u>	<u>Category 3</u>
Cash deposits	\$ 29,186,941	\$ 1,000,000	\$ 28,186,941	\$ -

Note 3. Receivables

Real property taxes receivable at December 31, 2014 amounted to \$8,068,924. Included in real property taxes receivable are returned city, village, and school taxes of \$2,715,392 which are offset by liabilities to the cities, villages, and school districts. Tax receivables are offset by unavailable property tax revenues amounting to \$3,938,749, as reported in the governmental funds balance sheet, which are not considered to be available as current financial resources at year end. City, village, and school district taxes not collected by the respective entity have been or will be re-levied with the County tax levy the following year.

State and federal receivable balances in the governmental activities column of the government-wide statement of net position consisted of funds claimed but not received from various state and federal sources amounting to \$14,253,724 at December 31, 2014. Other receivables reported in the governmental activities column of the government-wide statement of net position consisted of amounts receivable for PILOT payments, sales tax and services rendered by departments such as solid waste, the sewer districts, workers' compensation and self insurance of \$9,950,480 at December 31, 2014.

Note 4. Long-Term Solid Waste Lease Agreement

In September 2005, the County entered into a long-term lease agreement with New England Waste Services of New York, Inc. and Casella Waste Systems, Inc. ("Casella"). The agreement stipulates that Casella will run the landfill and material recycling operations and will reimburse the County for personnel and other costs as well as pay an annual lease payment. The lease payment will increase if the Department of Environmental Conservation approves a request to increase the annual dumping allotment.

Under the terms of the agreement, Casella will be responsible for all closure and post-closure costs. Accordingly, the long-term liability for landfill closure and post closure costs has been removed from these financial statements. Casella has issued a performance bond to the County to assure their obligations under the terms of the agreement. Minimum lease payments are as follows:

2015	\$ 1,000,000
2016	1,000,000
2017	1,000,000
2018	1,000,000
2019	1,000,000
Thereafter	<u>10,000,000</u>
Total	<u>\$ 15,000,000</u>

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Note 5. Capital Assets

Capital asset activity for the year ended December 31, 2014 was as follows:

	<u>Balance</u> <u>12/31/2013</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u> <u>12/31/2014</u>
Governmental Activities				
Capital Assets Not Depreciated

Note 6. Pension Plan

The County participates in the New York State and Local Employees' Retirement System ("ERS"). This is a cost sharing multiple employer system that provides retirement benefits as well as death and disability benefits. The County's contribution for 2014 and the three preceding years was as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>2011</u>
ERS pension contributions	<u>\$ 8,707,879</u>	<u>\$ 8,535,998</u>	<u>\$ 7,834,915</u>	<u>\$ 6,489,864</u>

Actual contributions presented represent 100% of the annual required contribution as determined in the actuarial valuation.

Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law ("NYSRSSL"). The Comptroller of the State of New York is the sole trustee and administrator of the ERS. The Comptroller shall adopt and may amend rules and regulations for the administration and transaction of the business of the ERS and for the custody and control of their funds. The ERS system issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on the New York State Office of the State Comptroller website.

ERS is noncontributory for the employee who joined prior to July 27, 1976. For employees who joined ERS after July 27, 1976 and prior to January 1, 2010, employees contribute 3% of their salary for a period of ten years. Employees who joined after January 1, 2010 and before April 1, 2012 contribute 3% for the entire term of their employment and employees who joined after April 1, 2012 contribute between 3% and 6% of their salary for the term of employment.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Membership Tiers

Pension legislation enacted in 1973, 1976, 1983 and 2009 established distinct classes of membership. For convenience, the System uses a tier concept to distinguish these groups, generally:

Tier 1 - Those persons who last became members before July 1, 1973.

Tier 2 - Those persons who last became members on or after July 1, 1973, but before July 27, 1976.

Tier 3 - Generally those persons who are State correction officers who last became members on or after July 27, 1976, but before January 1, 2010, and all others who last became members on or after July 27, 1976, but before September 1, 1983.

Tier 4 - Generally, except for correction officers, those persons who last became members on or after September 1, 1983, but before January 1, 2010.

Tier 5 - Generally those persons who first became members on or after January 1, 2010.

Tier 6 - Generally those persons who first became members on or after April 1, 2012.

Vesting

Members who joined the System prior to January 1, 2010 need five years of service to be 100% vested. Members who joined on or after January 1, 2010 need ten years of service credit to be 100% vested.

Benefits

Tier 1 and Tier 2 - Most Tier 1 and Tier 2 members are in a plan with a minimum retirement age of 55, which provides for 1.67% of the employee's final average salary for each year of service less than 20 years. Generally, the benefit with more than 20 years of service is 2% of the employee's final average salary for each year of service. Tier 2 members retiring between ages 55 and 62 with less than 30 years of service receive reduced benefits. As a result of Article 19 of the NYSRSSL, eligible Tier 1 and Tier 2 members, whose date of membership is prior to July 27, 1976, will receive an additional month of service credit for each year of credited service they have at retirement, up to a maximum of 24 months.

Tier 3, 4 and 5 - The full benefit age for Tiers 3, 4 and 5 is 62. Generally, the benefit is 1.67% of final average salary for each year of service if the member retires with less than 20 years. If a member retires with between 20 and 30 years of service, the benefit is 2% of the employee's final average salary for each year of service. If a member retires with more than 30 years of service, an additional benefit of 1.5% of the employee's final average salary is applied for each year of service over 30 years. Tier 3 and 4 members with five or more years of service and Tier 5 members with ten or more years of service can retire as early as age 55 with reduced benefits. Tier 3 and 4 members age 55 or older with 30 or more years of service can retire with no reduction in benefits.

Tier 6 - With the exception of those retiring under special retirement plans, Tier 6 members must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tier 6 is 63 for ERS members. Generally, the benefit is 1.67% of the employee's final average salary for each year of service if the member retires with less than 20 years. If a member retires with 20 years of service, the benefit is 1.75% of the employee's final average salary for each year of service. If a member retires with more than 20 years of service, an additional benefit of 2% of the employee's final average salary is applied for each year of service over 20 years. Tier 6 members with ten or more years of service can retire as early as age 55 with reduced benefits.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Note 7. Deferred Compensation

The County offers its employees a deferred compensation plan (the "Plan") created in accordance with Internal Revenue Code Section 457. The Plan, available to all full-time County employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency.

The Small Business Job Protection Act of 1996 was signed into law on August 20, 1996. As a result of this legislation, all 457 program assets must now be held in a trust, custodial account or annuity contract for the exclusive benefit of plan participants and their beneficiaries. Plan assets are no longer subject to claims of public entities' creditors during financial crisis.

The County adopted the Model Deferred Compensation Plan for employees of the County on December 14, 1999 retroactive to January 1, 1996. To insure compliance with the Small Business Job Protection Act of 1996, the County entered into an agreement with PEBSCO and The Hartford to become Trustee and Custodian for the County of Chemung Deferred Compensation Plan. In the year ended December 31, 2014, Mass Mutual was retained as the Plan's Trustee.

During the year ended December 31, 2014, employee contributions to the plan totaled \$1,549,793.

Note 8. Risk Retention

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, injuries to employees and their survivors. The County uses the internal service funds to account for and finance risks for workers' comp, health insurance and general liability. Assessments are paid in to this fund from other funds and participating municipalities, and are available to pay claims and administrative costs of the program. Claim liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include amounts for claims that have been incurred but not reported. Claim liabilities are estimated considering recent claim settlement trends and the effects of inflation using the present value method. Due to the uncertain nature of the timing of workers' compensation and general liability claims, judgments and payments, the portion due and payable in the next fiscal year is not reasonably determinable. Accordingly, management has elected to record the entire amount of the workers' compensation liability and general insurance liability as a current liability as of year end. Based on management's review of historical health insurance claims and claim runouts, management has estimated that the entire liability for health insurance claims will be paid out by the end of the next fiscal year. Accordingly, the entire health insurance liability has been recorded as a current liability in these financial statements. The County holds stop loss coverage for health insurance claims. The stop loss coverage limits the County's exposure to \$1,000,000 per claim. Claims have not exceeded insurable limits in the previous three years. Changes in the balances of claims liabilities reported in the internal service fund for the past two fiscal years ended December 31 are as follows:

	Self Insurance Fund		
	Workers' Comp	Health Insurance	General Liability
Liability - December 31, 2012	\$ 1,322,199	\$ 1,407,910	\$ 1,059,032
Current year claims and changes in estimates	1,918,211	21,195,923	61,291
Claims payments	(1,665,230)	(21,763,533)	(46,291)
Liability - December 31, 2013	1,575,180	840,300	1,074,032
Current year claims and changes in estimates	3,356,469	18,859,140	133,213
Claims payments	(1,950,430)	(18,733,753)	(59,057)
Liability - December 31, 2014	\$ 2,981,219	\$ 965,687	\$ 1,148,188

Note 9. Commitments and Contingencies

In the normal course of operations the County receives grant funds from various Federal and State agencies. These grant programs are subject to audit by agents of the granting authorities, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any disallowed expenditures resulting from such audits could become a liability of the County. While the amount of any expenditures, which may be disallowed cannot be determined at this time, management expects any amounts to be immaterial.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Note 10. Short-Term Debt

Bond Anticipation Notes

Liabilities for bond anticipation notes ("BANS") are generally accounted for in the general fund, capital projects fund and in the proprietary funds. The notes or renewal thereof may not extend more than two years beyond the original date of issue unless a portion is redeemed within the first two years. Redemptions must then continue in each subsequent twelve month period until the obligation is completely extinguished.

New York State Law requires that BANS issued for capital purposes be converted to long-term obligations within five years from the original issuance date. However, BANS issued for assessable improvement projects may be renewed up to the maximum life of the permanent financing, provided that stipulated annual reductions in principal occur.

Short-term debt activity for the year ended December 31, 2014 was as follows:

	<u>Balance</u> <u>12/31/2013</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u> <u>12/31/2014</u>
Bond anticipation note payable	\$ 6,460,907	\$ 6,398,968	\$ (6,460,907)	\$ 6,398,968

Short-term debt at December 31, 2014 consisted of a BAN in the amount of \$1,413,003 issued for general building improvement and equipment and highway equipment and a BAN renewal note in the amount of \$4,985,965 issued for general road work, airport improvements and equipment, general building improvement, and highway equipment. The 2014 BAN was issued on December 18, 2014 and matures on December 18, 2015. This 2014 BAN has an interest rate of 1.00%. The 2014 BAN renewal note was issued on October 16, 2014 and matures on October 16, 2015. The note was issued for the purpose of renewing, in part, the 2013 BAN, the outstanding balance of which will be paid from available current funds. The 2014 BAN renewal note has an interest rate of 1.00%.

Note 11. Long-Term Debt

The County finances capital projects under New York State Local Finance Law. The law stipulates borrowing parameters and limitations. Titles 8, 9 and 10 establish the County's borrowing limitation. Under these guidelines certain debt, such as debt that may be added to a separate ad valorem tax, is excluded in the computation of the County's debt limit. The County's constitutional debt limit for 2014, as defined by New York State Local Finance Law was \$267,210,934 at December 31, 2014. The County's qualified debt for that period is \$45,086,862 or 17% of the constitutional debt limit.

A summary of government-wide long-term debt and the long-term debt activity for the year ended December 31, 2014 is detailed in the following schedule:

	<u>Balance</u> <u>12/31/2013</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u> <u>12/31/2014</u>	<u>Amounts</u> <u>Due Within</u> <u>One Year</u>

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Current year debt service payments and balances at December 31, 2014 were as follows:

	<u>2014 Payments</u>		<u>Balance at December 31, 2014</u>		
	<u>Interest Payments</u>	<u>Principal Payments</u>	<u>Total</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Bonds Payable					
Public Improvement Bonds, 1998 - The County issued \$5,090,000 in public improvement bonds, dated June 15, 1998. These bonds have staggered maturities from 1999-2018. Interest rates range from 4.50% to 4.55%. The interest rate was 4.55% for the current year. Interest payments are made bi-annually. The bonding covered capital projects and purchases for the solid waste district and various general fund improvements. The bonding also covered the costs of issuance.	\$ 6,143	\$ 30,000	\$ 120,000	\$ 120,000	\$ -
Tobacco Settlement Bonds, 2000 - The Chemung Tobacco Asset Securitization Corporation (Chemung TASC) issued \$8,090,000 in tobacco settlement bonds, dated December 07, 2000. These bonds have staggered maturities from 2000-2025. Interest rates range from 5.00% to 6.625%. The interest rate was 5.875% for the current year. Interest payments are made semi-annually. The bonds were sold at a discount of \$116,695. The discount is being amortized over the lives of the bonds. The Chemung TASC bond is not debt of the County and the County is not liable thereon, nor shall it be payable out of any funds other than those of the Chemung TASC.	367,353	250,000	5,515,000	-	5,515,000
Public Improvement Bonds, 2002 - The County issued \$4,145,670 in public improvement bonds, dated March 15, 2002. These bonds have staggered maturities from 2003-2016. Interest rates range from 4.25% to 5.00%. The interest rate was 4.75% for the current year. Interest payments are made bi-annually. The bonding covered capital projects and purchases for various general fund and airport improvements. The bonding also covered the costs of issuance.	56,087	365,000	775,000	730,756	44,244
Public Improvement Bonds, 2005 - The County issued \$5,185,000 in public improvement bonds, dated August 15, 2005. These bonds had staggered maturities from 2006-2020. Interest rates ranged from 3.80% to 4.00%. The interest rate was 3.85% for the current year. Interest payments were made bi-annually. The bonding covered capital projects and purchases for various general fund, airport and nursing facility improvements. The bonding also covered the costs of issuance. These bonds were partially refunded with the issuance of Public Refunding Improvement Bonds, 2013.	17,325	450,000	-	-	-
Public Improvement Bonds, 2006 - The County issued \$4,278,620 in public improvement bonds, dated November 11, 2006. These bonds have staggered maturities from 2007-2021. Interest rates range from 3.75% to 4.00%. The interest rate was 4.00% for the current year. Interest payments are made bi-annually. The bonding covered capital projects and purchases for various general fund, airport and nursing facility improvements. The bonding also covered the costs of issuance. These bonds were partially refunded with the issuance of Public Refunding Improvement Bonds, 2013.	22,800	280,000	290,001	244,393	45,608

	<u>Interest Payments</u>	<u>Principal Payments</u>	<u>Total</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Public Improvement Bonds, 2011 - The County issued \$7,907,131 in public improvement bonds, dated October 20, 2011. These bonds have staggered maturities from 2012-2026. Interest rates range from 2.00% to 4.00%. The interest rate was 2.00% for the current year. Interest payments are made bi-annually. The bonding covered capital projects and purchases for various general fund improvements. The bonding also covered the costs of issuance.	229,075	440,000	6,615,000	6,615,000	-
Public Improvement Refunding Bonds, 2011 - The County issued \$5,740,000 in public improvement refunding bonds, dated August 01, 2011. These bonds have staggered maturities from 2011-2021. Interest rates range from 2.00% to 5.00%. The interest rate was 3.00% for the current year. Interest payments are made bi-annually. The bonding covered the refunding of Public Improvement Bonds, 2001 and 2003, which were originally issued to provide funding for various general fund, sewer, airport and nursing facility projects. The bonding also covered the costs of issuance. Advance refunding proceeds relating to this refunding are recorded on the statement of net position as of December 31, 2014 for \$156,166, net of amortization.	167,569	470,001	3,840,000	3,378,754	461,246
Public Improvement Bonds, 2012 - The County issued \$3,159,522 in public improvement bonds, dated October 15, 2012. These bonds have staggered maturities from 2013-2027. Interest rates range from 1.00% to 2.125%. The interest rate was 1.00% for the current year. Interest payments are made bi-annually. The bonding covered capital projects and purchases for various general fund and nursing facility improvements. The bonding also covered the costs of issuance.	48,548	190,000	2,780,000	2,179,170	600,830
Public Improvement Bonds, 2013 - The County issued \$5,771,477 in public improvement bonds, dated October 15, 2013. These bonds have staggered maturities from 2014-2028. Interest rates range from 2.00% to 3.625%. The interest rate was 2.00% for the current year. Interest payments are made bi-annually. The bonding covered capital projects and purchases for various general fund and nursing facility improvements. The bonding also covered the costs of issuance.	175,442	326,475	5,445,000	4,341,184	1,103,816
Public Improvement Refunding Bonds, 2013 - The County issued \$6,710,000 in public improvement refunding bonds, dated June 15, 2013. These bonds have staggered maturities from 2013-2021. Interest rates range from 2.00% to 3.00%. The interest rate was 2.00% for the current year. Interest payments are made bi-annually. The bonding covered the refunding of Public Improvement Bonds, 2004 and the partial refunding of Public Improvement Bonds, 2005 and 2006. The bonding also covered the costs of issuance. Advance refunding proceeds relating to this refunding are recorded on the statement of net position as of December 31, 2014 for \$293,069, net of amortization.	147,838	360,000	6,290,000	4,344,174	1,945,826

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

	2014 Payments		Balance at December 31, 2014		
	Interest Payments	Principal Payments	Total	Governmental Activities	Business- type Activities
Public Improvement Bonds, 2014 - The County issued \$4,916,077 in public improvement bonds, dated December 18, 2014. These bonds have staggered maturities from 2015-2028. Interest rates range from 2.00% to 3.00%. Interest payments are made bi-annually. The bonding covered capital projects and purchases for various general fund improvements. The bonding also covered the costs of issuance.	-	-	4,916,077	4,916,077	-
Total bonds payable	<u>\$ 1,824,125</u>	<u>\$ 4,676,227</u>	50,550,102	37,189,659	13,360,443

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

The following is a description of capital lease obligations as of December 31, 2014:

<u>Purpose / Issue Date</u>	<u>Due Date</u>	<u>Interest Rate</u>	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>
Telephone system / January 2014	01/01/2018	1.38% - 2.79%	\$ <u> </u> -	\$ <u>1,557,393</u>	\$ <u>(311,831)</u>	\$ <u>1,245,562</u>

Annual minimum lease payments are as follows:

2015	\$ 333,368
2016	333,368
2017	333,368
2018	<u>333,368</u>
Total	1,333,472
Less, interest	<u>(87,910)</u>
Total	<u>\$ 1,245,562</u>

Equipment held under the capital lease is as follows at December 31, 2014:

Furniture, equipment, and vehicles	\$ 1,557,393
Less - accumulated depreciation	<u>(166,684)</u>
Furniture, equipment, and vehicles - net	<u>\$ 1,390,709</u>

Amortization of furniture, equipment, and vehicles under capital assets is included with depreciation expense.

Note 12. Chemung County Nursing Facility - Enterprise Fund

Accounts Receivable and Charges for Services - Charges for services represent the estimated net realizable amounts from patients, third-party payors, and others for services rendered and are recognized as operating revenues as services are performed. Patient accounts receivable are recorded net of contractual allowances. Revenue under third-party payor agreements is subject to audit and retroactive adjustment. Provisions for third-party payor settlements are provided in the period when the settlements are determinable.

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Facility analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the Facility analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary. For receivables associated with private-pay patients (which includes patients without insurance, patients with deductible and copayment balances due for which third-party coverage exists for part of the bill, and patients awaiting Medicaid approval), the Facility records a significant provision for bad debts in the period of service on the basis of its past experience. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the applicable accounts receivable. The allowance for doubtful accounts at December 31, 2014 was \$908,793. The Facility's allowance for doubtful accounts increase of \$413,793 is the result of specific reserves for private-pay patients. The Facility does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors.

Revenue from Medicaid and Medicare accounted for approximately 63% of the Facility's total revenue, excluding inter-governmental transfers, for the year ended December 31, 2014. Laws and regulations governing Medicaid and Medicare are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Third-Party Reimbursement - The Medicaid program provides for reimbursement to nursing homes on a prospective basis with no provision for retroactive adjustments other than those resulting from audit by the third-party agency, which involve either errors in the original cost reports used by such agencies to develop the prospective rates or changes in regulations promulgated by the Courts. New York State rebasing legislation was enacted in 2006 and authorized an update of the Medicaid rates from a cost base year of 1983 to a 2002 cost base. As of December 31, 2014 the rebasing rates authorized in 2006 had not been implemented. Adjustments resulting from third-party audits are generally made by withholding amounts from current remittances or adjusting future reimbursement rates. Under the Medicare program, nursing homes are reimbursed for defined costs of services rendered to patients. During the year, the Medicare intermediary makes interim payments which are tentatively adjusted upon filing various cost reports and are subject to final adjustment upon audit.

Medicaid retroactive cash receipt assessments, which amounted to \$51,000 related to the year 2011, were recorded as a decrease in operating revenues for the year ended December 31, 2014. In addition, other retroactive adjustments amounting to a net amount of approximately \$5,000 were recorded as revenue for the year ended December 31, 2014.

The New York State Public Health Law has provided for payments to non-state operated public residential healthcare facilities, such as the Chemung County Nursing Facility, based on Medicaid days. This funding, which is an "Inter-Governmental Transfer (IGT)", has historically been received through the County. IGT revenues of \$5,068,014 were recorded by the Facility in 2014, which represented payments from the New York State 2013/2014 fiscal years.

The effect of the above-mentioned rate adjustments and audits on rate years subsequent to those mentioned is not presently determinable and, accordingly, has not been reflected in the accompanying financial statements.

Note 13. Internal Balances

The County reports internal balances between many of its funds. The sum of all balances presented in the table below agrees with the sum of interfund balances presented in the balance sheet for governmental funds, the statement of net position for proprietary funds, and statement of net position for the fiduciary fund.

	<u>Due From</u>	<u>Due To</u>
Governmental Activities		
General fund	\$ 6,174,971	\$ 5,726,363
Capital projects fund	-	3,226,707
Nonmajor governmental funds		
County road fund	123,440	-
Road machinery fund	177,872	-
Sewer funds	1,337,466	-
Solid waste fund	<u>334,204</u>	<u>-</u>
Total governmental activities	<u>8,147,953</u>	<u>8,953,070</u>
Business-type Activities		
Chemung County Nursing Facility	157,958	-
Elmira-Corning Regional Airport	<u>1,301,845</u>	<u>3,089,307</u>
Total business-type activities	<u>1,459,803</u>	<u>3,089,307</u>
Internal Service Funds	3,896,313	-
Agency Fund	<u>9,752</u>	<u>1,471,444</u>
Total Internal Balances	<u>\$ 13,513,821</u>	<u>\$ 13,513,821</u>

Internal balances are used to:

- (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them
- (2) move expenditures from chargeable funds to a single fund for disbursement and
- (3) compensate for the time lag between the dates interfund goods and services are provided or reimbursable and the payments are actually made between the funds.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Note 14. Interfund Transfers

The County reports interfund transfers between many of its funds. The sum of all transfers presented in the table below agrees with the sum of interfund transfers presented in the statement of revenues, expenditures and changes in fund balance for governmental funds and the statement of revenues, expenses and changes in fund net position for proprietary funds.

	<u>Transfers In</u>	<u>Transfers Out</u>
Governmental Activities		
General fund	\$ -	\$ 6,055,439
Capital projects fund	1,610,822	2,013,994
Nonmajor governmental funds		
County road fund	<u>5,566,680</u>	<u>622,063</u>
Total governmental activities	<u>7,177,502</u>	<u>8,691,496</u>
 Business-type Activities		
Elmira-Corning Regional Airport	<u>2,013,994</u>	<u>500,000</u>
Total business-type activities	<u>2,013,994</u>	<u>500,000</u>
 Total Interfund Transfers	 <u>\$ 9,191,496</u>	 <u>\$ 9,191,496</u>

Interfund transfers are used to:

- (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them
- (2) fund capital projects from operating funds.

Note 15. Joint Ventures

The following are activities undertaken jointly with other municipalities and are excluded from the financial statements:

Southern Tier Central Regional Planning and Development Board - The Counties of Chemung, Steuben, and Schuyler are participants in the joint Southern Tier Central Regional Planning and Development Board. The municipal agreement provides that the participants' share of the cost shall be prorated as agreed upon by the member Counties. In 2014, there were no contributions from the County. As of December 31, 2014, there was no outstanding indebtedness. Audited financial statements may be obtained from the Administrative Offices of the Southern Tier Central Regional Planning Board located at 8 Denison Parkway, Corning, New York 14830.

Corning Community College - Corning Community College is operated jointly by the Counties of Chemung, Steuben and Schuyler. The County of Chemung included approximately \$3.8 million in its 2014 real property tax levy to help finance the College's expenditures. In 2014, the County expended \$4,041,970 in residential tuition, which was based on capital and operating costs.

The following is a summary of audited financial information included in the financial statements issued for the college for the year ended August 31, 2014:

	<u>All Funds</u>
Total assets	\$ 73,225,817
Total liabilities	\$ 26,337,700
Net position	\$ 46,888,117
Total revenues	\$ 46,086,967
Total expenses	\$ 38,965,741

Separate financial statements may be obtained by contacting the administrative office of Corning Community College, 1 Academic Drive, Corning, New York 14830-3297.

Note 16. Chemung Tobacco Asset Securitization Corporation

In January 1997, the State of New York filed a lawsuit against the tobacco industry, seeking to recover the costs that the State and local governments had incurred in treating smoking related illnesses. Chemung Tobacco Asset Securitization Corporation (the "Corporation") was established to acquire from Chemung County all or a portion of the rights, title and interest under the Master Settlement Agreement (the "MSA") and the Consent Decree and Final Judgment (the "Decree") as described herein.

The MSA includes New York and 45 other states, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa and the Territory of the Northern Marianas, and four of the largest United States tobacco product manufacturers: Philip Morris Incorporated, R.J. Reynolds Tobacco Company, Brown and Williamson Tobacco Company (B&W), and Lorillard Tobacco Company (collectively, the "Original Participating Manufacturers" or "OPMs"). On January 5, 2004, Reynolds American Inc. was incorporated as a holding company to facilitate the combination of the U.S. assets, liabilities, and operations of B&W with those of Reynolds Tobacco. The agreement was entered into in settlement of certain smoking-related litigation and the Decree entered in New York Supreme Court, including the County's right to receive certain initial and annual payments to be made by the OPMs under the MSA.

The Corporation was formed to raise funds by issuing bonds, use those funds to acquire the rights to future proceeds from a settlement agreement with various tobacco companies payable to the County, and remain in existence during the term of the bonds to collect the tobacco settlement proceeds and service the debt.

The Corporation is dependent on future proceeds from the settlement agreement. Proceeds received in excess of the Corporation's operational expenses, debt service and required reserves are transferred to the County, as the beneficial owner of the residual certificate, subject to restrictions imposed by certain trapping events.

During 2003, the Corporation adopted its first amendment to the indenture, dated as of December 1, 2000, between the Corporation and Manufacturers and Traders Trust Company (M&T), as Trustee. The amendment effectively modifies the indenture to be consistent with the official statement concerning downgrade trapping events as being immediate, in the year in which the event occurred.

The Corporation is a local development corporation created in October 2000 under Section 1411 of the New York State Not-for-Profit Corporation Law. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 39, *Determining Whether Certain Organizations are Component Units*, and Technical Bulletin 2004-1, *Tobacco Settlement Recognition and Financial Reporting Entity Issues*, the Corporation is required to be included in the basic financial statements of Chemung County, New York. Accordingly, the Corporation is presented as a blended component unit of the County.

Tobacco Settlement Proceeds Receivable - This asset represents estimated annual payments to be received from the MSA between various tobacco manufacturers and state and local governments. The MSA resolved cigarette smoking-related litigation between the manufacturers and the states. The right to receive the payments was acquired by the Corporation through a purchase from the County. A residual certificate exists that represents the County's entitlement to receive all amounts required to be distributed after payment of debt service, operating expenses, and certain other costs set forth in the indenture. As of December 31, 2014 the tobacco settlement proceeds receivable amounted to \$620,777.

Residual Receivable/Payable to Chemung County - The Corporation receives 100% of the County's tobacco settlement proceeds, although only 40% are applicable to the Corporation. The residual 60% is refundable to the County. As of December 31, 2014, none of the residual assets due to the County were held by the Corporation.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

Note 17. Post Employment Healthcare Plan ("OPEB" Liability)

Plan Description - The County contributes to the Chemung County Employee Health Care Plan ("the Plan"), a cost sharing single-employer defined benefit healthcare plan administered by Excellus Blue Cross and Blue Shield. The Plan provides medical benefits to active and retired employees of the County. Currently, the costs of these benefits are expensed as claims are incurred and are recorded as health insurance expense. The retired employees reimburse the County for a portion of these expenses and the reimbursed amount is allocated against this expense.

Funding Policy - The County and the retiree each pay 50% of the premium cost until the retiree becomes eligible for Medicare. When the employee becomes eligible for Medicare, the coverage converts to a Medicare PPO plan if the employee continues to live in New York State and remains the same for retirees out of state. The County pays \$108.14 of the Medicare PPO cost and 50% of the non-PPO coverage plus a Medicare off-set.

Actuarial Methods and Assumptions - Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These actuarially determined amounts are subject to continual revisions as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress presented immediately following the financial statements as required supplementary information, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial calculations of the Plan reflect a long-term perspective. Consistent with this perspective, actuarial valuations will use actuarial methods and assumptions that include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The period used to determine amortization costs for the initial Unfunded Actuarial Accrued Liability is a level period of thirty years. As of January 1, 2013, the most recent actuarial valuation date, the Plan was unfunded, resulting in an overall unfunded accrued liability of \$42,642,862.

The annually required contribution ("ARC") for the Plan was determined as a part of the January 1, 2013 actuarial valuation using the following methods and assumptions:

Actuarial cost method	Projected Unit Credit
Amortization method	Level Dollar Open
Amortization period	30 years
Inflation rate	2.9%
Investment return	4.0%
Projected salary increases	1.7%
Healthcare cost trend rate	SOA Long-Run Medical Cost Trend Model

The SOA Long-Run Medical Cost Trend Model, developed by the Society of Actuaries, and its baseline projection are based on an econometric analysis of historical U.S. medical expenditures and the judgments of experts in the field. The long-run baseline projection and input variables have been developed under the guidance of an SOA Project Oversight Group. Trend rates are as follows:

<u>Fiscal Year</u>	<u>Trend Rate</u>	<u>Fiscal Year</u>	<u>Trend Rate</u>
2015	6.00%	2034-2043	5.20%
2016	6.10%	2044-2053	4.98%
2017	6.07%	2054-2063	4.83%
2018	6.03%	2064-2073	4.73%
2018-2023	5.89%	2074-2083	4.29%
2024-2028	6.03%	2083+	4.29%
2029-2033	5.90%		

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Basic Financial Statements

The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the County's net OPEB obligation to the Plan:

	<u>County</u>	<u>Nursing Facility</u>	<u>Airport</u>	<u>Total</u>
Annual required contribution	\$ 3,996,679	\$ 619,745	\$ 91,580	\$ 4,708,004
Interest on net OPEB obligation	577,335	60,858	13,229	651,422
Adjustment to annual required contribution	<u>(404,218)</u>	<u>(84,602)</u>	<u>(9,261)</u>	<u>(498,081)</u>
Annual OPEB cost (expense)	4,169,796	596,001	95,548	4,861,345
Contributions made	<u>(1,531,135)</u>	<u>(340,803)</u>	<u>(41,348)</u>	<u>(1,913,286)</u>
Increase in OPEB obligation - net	2,638,661	255,198	54,200	2,948,059
Net OPEB obligation - beginning	<u>12,023,147</u>	<u>1,521,455</u>	<u>281,762</u>	<u>13,826,364</u>
Net OPEB obligation - ending	<u>\$ 14,661,808</u>	<u>\$ 1,776,653</u>	<u>\$ 335,962</u>	<u>\$ 16,774,423</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and preceding two years is as follows:

	<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>% of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
County	12/31/2014	\$ 4,169,796	36.7%	\$ 14,661,808
Nursing Facility	12/31/2014	\$ 596,001	57.2%	\$ 1,776,653
Elmira-Corning Regional Airport	12/31/2014	\$ 95,548	43.3%	\$ 335,962
County	12/31/2013	\$ 3,262,519	46.2%	\$ 12,023,147
Nursing Facility	12/31/2013	\$ 505,393	47.9%	\$ 1,521,455
Elmira-Corning Regional Airport	12/31/2013	\$ 76,456	42.6%	\$ 281,762
County	12/31/2012	\$ 3,187,701	41.8%	\$ 10,267,447
Nursing Facility	12/31/2012	\$ 496,955	52.0%	\$ 1,257,920
Elmira-Corning Regional Airport	12/31/2012	\$ 73,858	41.8%	\$ 237,893

Note 18. Special Items

A special item - impairment loss of \$24,740,490 was recorded in relation to the Sikorsky related capital assets held by the Chemung County Industrial Development Agency, (the "Agency"), a component unit of the County. There is no longer an income stream for these capital assets and in turn an impairment loss was recorded. The remaining value of the buildings recorded as building held for resale, \$3,000,000 was determined based on an offer the Agency has received to purchase the building which is expected to be finalized in 2015.

On October 31, 2014, Sikorsky made final payments in full on their lease agreement with the Agency. Special item - non-recurring lease payments of \$21,416,068 represent payments from Sikorsky for final paydown on their lease agreement with the Agency.

Note 19. Future Implementations of GASB Pronouncements

The Governmental Accounting Standards Board has issued the following pronouncements which will be implemented in the years required. The effects of the implementation of these pronouncements are not known at this time.

Statement No. 68 - *Accounting and Financial Reporting for Pensions*. Effective for periods beginning after June 15, 2014.

Statement No. 71 - *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*. The provisions of the statement will be applied simultaneously with the provisions of GASB Statement No. 68.

Statement No. 72 - *Fair Value Measurement and Application*. Effective for periods beginning after June 15, 2015.

Statement No. 73 - *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Effective for periods beginning after June 15, 2015.

Statement No. 74 - *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Effective for periods beginning after June 15, 2016.

Statement No. 75 - *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Effective for periods beginning after June 15, 2017.

See accompanying notes to required supplementary information.

COUNTY OF CHEMUNG - STATE OF NEW YORK
Notes to Required Supplementary Information
For the Year Ended December 31, 2014

Note 1. Budgetary Comparison Schedule and Basis of Reporting

New York State Municipal Law requires the County to adopt a balanced budget. Under the County Charter, the County Executive is required to submit a budget for all funds to the County Legislature on or before November 10. The County Legislature must then act on the budget and return it to the County Executive for signature by December 7. Any changes must be reconciled and a final budget approved on or before December 15. After the budget is adopted, the County Executive may make transfers between operational accounts within the same department for all appropriations except personnel. Budget modifications between those accounts and between departments require a majority vote of the legislature. The budgetary comparison schedule has been prepared on the legal level of budgetary control. Therefore, the County's budgetary comparison schedule presents expenditures by department, with separate identification of personnel object codes, where applicable. The County prepares and reports its budgetary information in accordance with accounting principles generally accepted in the United States of America.

The Chemung County Office of Budget and Research assists the County Executive in the preparation of the annual operating budget. In addition, the office monitors the County's departmental expenses and revenues and assists departments with their financial questions and concerns. The Budget Director also assists with the preparation of the annual financial report, claims and other financial reports. Additionally, the County Budget Director reviews and enforces County policy and procedures and forecasts into the future to estimate the impact of economic events, requirements and trends.

Note 2. Schedule of Funding Progress for Other Postemployment Benefit Obligations

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information for the other postemployment benefit obligation, latest actuarial valuation and actuarial assumptions and methods can be found in Note 17 to the financial statements.

STATISTICAL SECTION

(Unaudited)

INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES – These schedules contain ten years of fund financial statements for each of the County's funds.

FINANCIAL TRENDS – These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

REVENUE CAPACITY – These schedules contain information to help the reader assess the County's most significant local revenue sources: property and sales taxes.

DEBT CAPACITY – These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.

DEMOGRAPHIC AND ECONOMIC INFORMATION – These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.

OPERATING INFORMATION – This schedule contains service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Note: For 2005 through 2006, sales tax revenue was recorded net of the amounts distributed to other municipal governments in the original audited financial statements. For purposes of this comparative schedule the gross amount of sales tax is shown as revenue and amounts distributed to other municipalities is recorded as a distribution of sales tax.

Total direct and overlapping debt		<u>\$ 218,635,640</u>	<u>\$ 25,953,268</u>	<u>\$ 192,682,372</u>

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Chemung County. This process recognized that, when considering the County's ability to issue and re-pay long-term debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. The debt outstanding was obtained from select data provided on the NYS Comptroller's website. Total debt outstanding excludes enterprise fund bonds. Exempt debt of the County represents funds available for debt service repayments.
